BERG Trampolines

Safe, strong and unlimited jumping pleasure!

Quality

Only the very best is good enough! To guarantee the best quality at all times all our trampolines and materials are tested under all kinds of weather conditions by independent specialists such as TÜV and Intertek.

Safety

To ensure that a BERG really is the safest choice, we continue to innovate and test. We ensure that every part of every trampoline is strong and safe. The protective edge, for example, is not only UV and wear-resistant, it also fits perfectly on the jumping mat. When you choose BERG you choose quality and safety.

Fun and games

BERG develops products which children can play on and enjoy without a care in the world. Children give playing and trampolining top priority! Children can fantasise and make new discoveries to their heart's content on a trampoline. You can try out our trampolines at one of our sales outlets.

Design

A trampoline is a large object in any garden. That's why BERG's team of engineers invests a great deal of time and attention into the design of the various trampolines. The frame, the protective edge and the optional safety net give the trampoline a neat and tidy appearance.

Innovation

At our head office in Ede (NL) we are constantly working on new products and technologies to suit the needs of you and your children. BERG's product range continues to expand. BERG continues to bring trampolines onto the market in increasingly more sizes, shapes and colours, so that there is something for everyone!

Sustainability

BERG works on the basis of conscious choices, which means that we take the world around us into account. Sustainability is an important aspect in this context. We produce all our products environmentally friendly. We pay particular attention to this when producing every part of every product.

BERG Trampoline comparison

BERG Trampoline summary

BERG Elite

Ø 330, 380 and 430 cm
Also available as BERG Ultim Elite and BERG Grand Elite

AIRFLOW

Jumping comfort: Quality: ★★★★★

Warranty

Frame: 13 years*
Protective edge: 5 years
Jumping mat: 2 years
Springs: 5 years

UV-resistant protective edge***

Protective edge

AirFlow jumping mat

Less resistance while jumping, which is why you can make higher jumps.

TwinSpring Gold springs

Because these springs are placed at an angle, they are extra long and extremely flexible without reducing the jumping surface.

Frame: Galvanised and black finish**

Safety Net Deluxe

- Arched construction for extra stability and safety
- Superior quality safety net

BERG Champion

Ø 270, 330, 380 and 430 cm
Also available as BERG Ultim Champion and BERG Grand Champion

AIRFLOW

Perfect Jump Area TwinSpring*

BERG ULTIM Trampoline

On a rectangular trampoline you can jump over the entire length. The jumps that you make on a rectangular trampoline are more controlled. That's why rectangular trampolines are used by top performers at the Olympic Games. The shape ensures that the trampoline fits perfectly in almost any garden.

BERG GRAND Trampoline

The oval shape combines the efficient strength of a round frame with the large jumping surface of a rectangular trampoline. On an oval trampoline you can make some nice jumps over the entire length.

BERG Trampoline

The frame of a round trampoline is very strong. On a round trampoline you always jump towards the centre. The best jumps are made in the centre of a round trampoline. This is because the tension on the springs and the frame is equally divided when jumping.

* TwinSpring springs are fitted on the Elite and Champion trampolines as standard.

BERG Regular + Safety Net

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

BERG InGround + Safety Net

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.

BERG InGround (Sports)

The sunken trampoline without safety net (sports) is nicely concealed in your garden. The low threshold of 20/27 centimetres makes the trampoline easy and safe to step onto.

BERG FlatGround

A FlatGround trampoline integrates seamlessly with your garden. This is because the protective edge of the trampoline is completely level with the garden. This makes the trampoline unobtrusive and very easy to step onto.

* On registration at bergtoys.com/registration. ** InGround trampolines have a zinc coating and no black finish. *** The UV values mentioned are a BERG Classification. This is not an official UV factor.

BERG Elite

Do you want the very best trampoline there is? In that case you should go for the BERG Elite! The solid protective edge and its long-term attractiveness make the Elite unique. It is super sturdy and made of the very best and strongest material on the market. This makes the protective edge durable and keeps it optimally protected from exposure to the sun.

& **TWINSPRING**

BERG Elite + Safety Net Deluxe

AVAILABLE WITH
LEVELS Game*

High-end glossy finish

The high quality and the UV blockers make the protective edge extremely UV resistant. As a result, discolouration of the protective edge is minimised and it remains attractive for many years

- Safety Net Deluxe:
 - High-quality net material
 - Curved poles for extra protection
 - The extra upper edge keeps the net nice and taut

AVAILABLE WITH
LEVELS Game*

BERG Elite InGround + Safety Net Deluxe

Due to the diagonally placed TwinSpring Gold springs you can make better and safer jumps over the entire trampoline.

The AirFlow jumping mat allows 50% more air permeation. This ensures less resistance while jumping, which is why you can make higher jumps.

Made of the best material so that the protective edge is perfectly protected from the sun. The protective edge is suitable for intensive use and is extra safe.

On a round trampoline you always jump towards the centre, which makes jumping extra safe.

BERG Elite InGround

Jump until you are fit on our very best trampoline with TwinSpring Gold springs. These springs will ensure that you get the most out of your workout. Very suitable for an intensive training!

BERG Elite FlatGround

A trampoline that is barely noticeable? The Elite FlatGround is sunk into the ground at the same level as your garden, making it nicely concealed.

The rectangular tubular frame is very strong and of high quality. As a result, the trampoline remains stationary and noiseless.

The Elite FlatGround has a special noise-reducing strap underneath the padding. This prevents the padding from rattling against the jumping mat and enables you to make quite jumps.

BERG Favorit

Can't get enough of all that jumping? No problem! The BERG Favorit will give you years of pleasure. This trampoline has been developed with great care and attention so that children and adults can jump safely. The GoldSpring Solo spring is long, which results in better and more flexible jumps. The Safety Net Comfort is extra safe due to a self-closing entrance and a protective foam layer around the poles.

BERG Favorit + Safety Net Comfort

AVAILABLE WITH
LEVELS Game*

Nice supple jumps thanks to the GoldSpring Solo springs

Safe, self-closing entrance

Good quality net material

BERG Favorit InGround + Safety Net Comfort

The galvanised GoldSpring Solo spring is longer than the GoldSpring Talent spring. This makes for better and higher jumps.

The sturdy frame of a Favorit will last for many years due to the large diameter.

Thanks to the thick layer of PVC, the protective edge will last for a long time. The edge is 380 mm wide and 10/20 mm thick.

On a round trampoline you always jump towards the centre, which makes jumping extra safe.

The frame of an InGround trampoline is specially designed to be sunk in the ground and is equipped with 8 short legs. The frame is rustproof.

The net, which is attached to the protective edge, prevents children, animals and toys from getting under the trampoline.

BERG Favorit InGround

Do your workout on an unobtrusive, safe Favorit trampoline! You jump closer to the ground and you can easily step onto the trampoline due to the low threshold of 20 cm. The protective edge is 380 mm wide. This ensures a good protective overlap over the springs.

BERG GRAND Favorit

The oval Favorit trampoline combines a strong round frame with the larger jumping surface of a rectangular trampoline. The Grand Favorit also provides years of jumping fun because the trampoline stands firmly on the ground with little wear and tear. This trampoline has been developed so that children and adults can jump safely. The GoldSpring Solo spring is longer than the Talent spring, which results in better and more flexible jumps. The Safety Net Comfort is extra safe due to a self-closing entrance and a protective foam layer around the poles.

BERG Talent

The compactness of the round BERG Talent makes it the most suitable trampoline for the smaller garden. Children can discover in a safe way how much fun trampolining is on a BERG Talent! The special GoldSpring Talent springs ensure that some great jumps can be made on this trampoline compared with other trampolines with the same diameter. The frame is rustproof so the trampoline will last for many years. The Talent is available with the self-closing Safety Net Comfort. As a result, children can bounce on the trampoline without a care in the world!

BERG Talent + Safety Net Comfort

Lots of jumping fun thanks to the GoldSpring Talent springs

Safe, self-closing entrance

The protective edge is made of weatherproof PVC (0.35 mm thick)

BERG Talent InGround + Safety Net Comfort

BERG Talent InGround

We also have a BERG Trampoline for the smaller garden on which you can work on your fitness. This trampoline has GoldSpring Talent springs so that you can easily do a workout session.

The net, which is attached to the protective edge, prevents children, animals and toys from getting under the trampoline.

The frame of an InGround trampoline is specially designed to be sunk in the ground and is equipped with short legs. The frame is rustproof and easy to assemble

The Talent is equipped with the GoldSpring Talent springs, making jumping even easier.

The frame of a Talent will last for many years.

Thanks to the layer of PVC, the protective edge will last for a long time. The protective edge is 290 mm wide and 17 mm thick.

On a round trampoline you always jump towards the centre, which makes jumping extra safe.

For trampolines measuring 70 and 76 cm high. The ladder is height adjustable.

Ladder L
For trampolines measuring 85, 90 and 95 cm high. The ladder is height adjustable.

NEW!

BERG LEVELS Game

BERG Levels is a challenging game that stimulates the development of children in a fun way by making a link between physical and cognitive skills.

The game has been developed in collaboration with primary school teachers for children of different ages. The youngest children learn colours and start developing balance. The older children are stimulated to remember increasingly longer series and to make more difficult sums.

The game includes dice and instructions.

- This resulted in three games with different levels:
- Balance game (the better the balance, the better the jumps)
 - Sump jump game (playfully learn numbers and maths)
 - Memory game (train the brain in a fun way)

3 different games for a lot of game variation

Easy clip-on bag for storing the game balls & the rule sheets

3 soft game balls
