

## Trampolines

2020

# Trampolines

Safe, strong and unlimited jumping pleasure!

## Quality

Only the very best is good enough! To guarantee the best quality at all times all our trampolines and materials are tested under all kinds of weather conditions by independent specialists such as TÜV and Intertek.

## Safety

To ensure that a BERG really is the safest choice, we continue to innovate and test. We ensure that every part of every trampoline is strong and safe. The protective edge, for example, is not only UV and wear-resistant, it also fits perfectly on the jumping mat. When you choose BERG you choose quality and safety.

## Fun and games

BERG develops products which children can play on and enjoy without a care in the world. Children give playing and trampolining top priority! Children can fantasise and make new discoveries to their heart's content on a trampoline. You can try out our trampolines at one of our sales outlets.

## Design

A trampoline is a large object in any garden. That's why BERG's team of engineers invests a great deal of time and attention into the design of the various trampolines. The frame, the protective edge and the optional safety net give the trampoline a neat and tidy appearance.

## Innovation

At our head office in Ede (NL) we are constantly working on new products and technologies to suit the needs of you and your children. BERG's product range continues to expand. BERG continues to bring trampolines onto the market in increasingly more sizes, shapes and colours, so that there is something for everyone!

## Sustainability

BERG works on the basis of conscious choices, which means that we take the world around us into account. Sustainability is an important aspect in this context. We produce all our products environmentally friendly. We pay particular attention to this when producing every part of every product.

## Trampoline comparison

**BERG Elite**  
 Ø 330, 380 and 430 cm.  
 Also available as BERG Ultim Elite and Grand Elite.

Jumping comfort: ★★★★★ Quality: ★★★★★

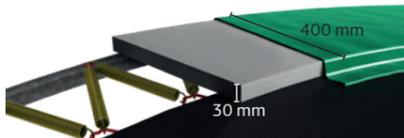

### Warranty

Frame: 13 years\*  
 Protective edge: 5 years  
 Jumping mat: 2 years  
 Springs: 5 years

### UV-resistant protective edge\*\*

### Protective edge\*\*\*

### AirFlow jumping mat

Less resistance while jumping, which is why you can make higher jumps.

### TwinSpring Gold springs

Because these springs are placed at an angle, they are extra long and extremely flexible without reducing the jumping surface.

### Frame: Galvanised and black finish\*\*\*\*

### Safety Net Deluxe

- Arched construction for extra stability and safety
- Superior quality safety net
- Also available in XL version

**BERG Champion**  
 Ø 270, 330, 380 and 430 cm.  
 Also available as BERG Ultim Champion and Grand Champion.

Jumping comfort: ★★★★★ Quality: ★★★★★

 Perfect Jump Area TwinSpring Gold\*

### BERG ULTIM Trampoline

On a rectangular trampoline you can jump over the entire length. The jumps that you make on a rectangular trampoline are more controlled. That's why rectangular trampolines are used by top performers at the Olympic Games. The shape ensures that the trampoline fits perfectly in almost any garden.

### BERG GRAND Trampoline

The oval shape combines the efficient strength of a round frame with the large jumping surface of a rectangular trampoline. On an oval trampoline you can make some nice jumps over the entire length.

### BERG Trampoline

The frame of a round trampoline is very strong. On a round trampoline you always jump towards the centre. The best jumps are made in the centre of a round trampoline. This is because the tension on the springs and the frame is equally divided when jumping.

\* TwinSpring springs are fitted on the Elite and Champion trampolines as standard.

#### Regular + Safety Net

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

#### InGround + Safety Net

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.

#### FlatGround + Safety Net

A FlatGround trampoline integrates seamlessly with your garden. This is because the protective edge of the trampoline is completely level with the garden. This ensures a very easy step-on. The Safety Net ensures that every user can jump safely.

#### InGround (Sports)

The sunken trampoline without safety net (sports) is nicely concealed in your garden. The low threshold of 20/27 centimetres makes the trampoline easy and safe to step onto.

#### FlatGround (Sports)

A FlatGround trampoline integrates seamlessly with your garden. This is because the protective edge of the trampoline is completely level with the garden. This makes the trampoline unobtrusive and very easy to step onto.

\* On registration at [bergtoys.com/registration](http://bergtoys.com/registration). \*\* The UV values mentioned are a BERG Classification. This is not an official UV factor. \*\*\* The dimensions of the Ultim and Grand trampolines differ. \*\*\*\* InGround trampolines have a zinc coating and no black finish.

# Elite

Do you want the very best trampoline there is? In that case you should go for the BERG Elite! The solid protective edge and its long-term attractiveness make the Elite unique. It is super sturdy and made of the very best and strongest material on the market. This makes the protective edge durable and keeps it optimally protected from exposure to the sun.

## BERG Elite + Safety Net DLX XL\*\*

Het Safety Net DLX XL is extra high (220 cm). This makes the net extra safe. The high opening makes it easy to access the trampoline.

The protective edge remains attractive for many years.

Extremely safe, self-closing entrance with distinctive trim.

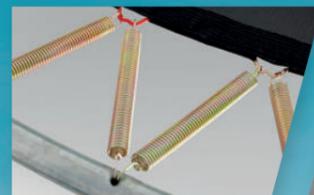

**22% XL**

**HIGHER & SAFER**

- Safety Net Deluxe:
  - High-quality net material.
  - Curved poles for extra protection.
  - The extra hoop keeps the net nice and taut.

AVAILABLE WITH  
**LEVELS Game\***

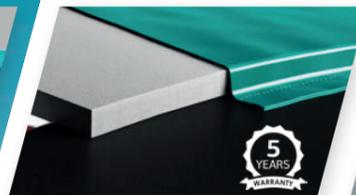

## BERG Elite InGround + Safety Net Deluxe

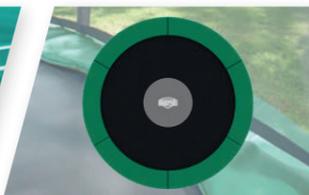

Due to the diagonally positioned TwinSpring Gold springs you can make better and safer jumps over the entire trampoline.

The AirFlow jumping mat allows 50% more air permeation. This ensures less resistance while jumping, which is why you can make higher jumps.

Made of the best material so that the protective edge is perfectly protected from the sun. The protective edge is suitable for intensive use and is extra safe.

On a round trampoline you always jump towards the centre, which makes jumping extra safe.

**SPORTS**

## BERG Elite InGround

Jump until you are fit on our very best trampoline equipped with TwinSpring Gold springs. These springs will ensure that you get the most out of your workout. Very suitable for an intensive training!

## BERG Elite FlatGround

A trampoline that is barely noticeable! The Elite FlatGround is sunk into the ground at the same level as your garden, making it nicely concealed.

The rectangular tubular frame is very strong and of high quality. As a result, the trampoline remains stationary and noiseless.

The Elite FlatGround has a special noise-reducing strap underneath the padding. This prevents the padding from rattling against the jumping mat and enables you to make quite jumps.

# GRAND Champion

Choose the champion of both worlds! The Grand Champion combines the advantages of the strong round frame with the large jumping surface of a rectangular trampoline. This makes trampolining not only fun but also safe. The attractive protective edge and the rustproof frame make your trampoline look appealing at all times.

POWERED BY

## BERG GRAND Champion + Safety Net DLX XL\*

Het Safety Net DLX XL is extra high (220 cm). This makes the net extra safe. The high opening makes it easy to access the trampoline.

The special connection between the protective edge and the Safety Net makes the trampoline extra safe.

Provided with a black finish.

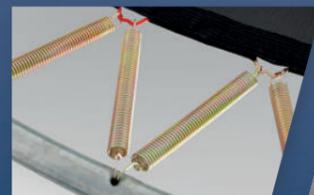

**22% XL**  
**HIGHER & SAFER**

- Safety Net Deluxe:
  - High-quality net material.
  - Curved poles for extra protection.
  - The extra hoop keeps the net nice and taut.

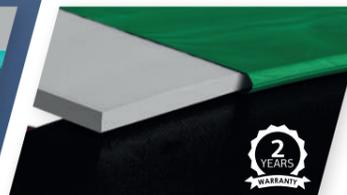

## BERG GRAND Champion InGround + Safety Net Deluxe

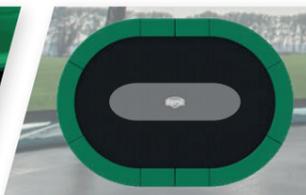

Due to the diagonally positioned TwinSpring Gold springs you can make better and safer jumps over the entire trampoline.

The AirFlow jumping mat allows 50% more air permeation. This ensures less resistance while jumping, which is why you can make higher jumps.

The protective edge has a foam layer of 30 mm. The foam in the protective edge is encased in a thick, weather-resistant outer layer of reinforced PVC.

The oval shape combines the efficient strength of a round frame with the large jumping surface of a rectangular trampoline.

# Favorit

Can't get enough of all that jumping? No problem! The BERG Favorit will give you years of pleasure. This trampoline has been developed with great care and attention so that children and adults can jump safely. The GoldSpring Solo spring is long, which results in better and more flexible jumps. The Safety Net Comfort is extra safe due to a self-closing entrance and a protective foam layer around the poles. The Favorit will undergo a design update in 2020 after which sizes 270 and 330 will be equipped with 6 legs, just like the 200.

NEW SIZE:  
BERG FAVORIT 200

age  
**6+**

## BERG Favorit + Safety Net Comfort

AVAILABLE WITH  
**LEVELS Game\***

Nice supple jumps thanks to the GoldSpring Solo springs.

Safe, self-closing entrance.

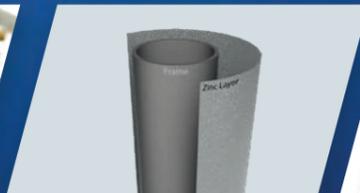

Good quality net material.

New: the Favorit series is now also available in size 200.

## BERG Favorit InGround + Safety Net Comfort

Enjoy some fantastic trampolining on all Favorit trampolines due to the long and supple GoldSpring Solo springs.

The sturdy frame of a Favorit will last for many years due to the large diameter.

Thanks to the thick layer of PVC, the protective edge will last for a long time. The edge is 380 mm wide and 10/20 mm thick.

On a round trampoline you always jump towards the centre, which makes jumping extra safe.

age  
**14+**

Jumping comfort: ★★★★★  
Quality: ★★★★★

**SPORTS**

The frame of an InGround trampoline is specially designed to be sunk in the ground and is equipped with short legs. The frame is rustproof.

The net, which is attached to the protective edge, prevents children, animals and toys from getting under the trampoline.

## BERG Favorit InGround

Do your workout on an unobtrusive, safe Favorit trampoline! You jump closer to the ground and you can easily step onto the trampoline due to the low threshold of 20 cm. The protective edge is 380 mm wide. This ensures a good protective overlap over the springs.

**Ladder L**  
For trampolines measuring 85, 90 and 95 cm high. The ladder is height adjustable.

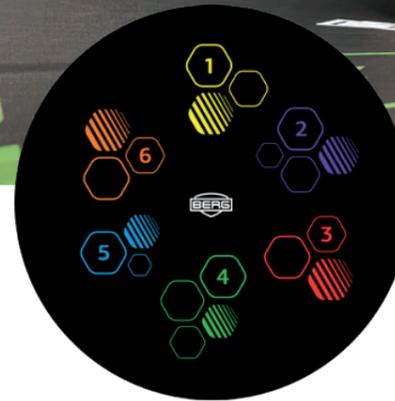

## BERG LEVELS Game

BERG Levels is a challenging game that stimulates the development of children in a fun way by making a link between physical and cognitive skills.

The game has been developed in collaboration with primary school teachers for children of different ages. The youngest children learn colours and start developing balance. The older children are stimulated to remember increasingly longer series and to make more difficult sums.

The game includes balls and game instructions.

- This resulted in three games with different levels:
- Balance game (the better the balance, the better the jumps).
  - Sum jump game (playfully learn numbers and maths).
  - Memory game (train the brain in a fun way).
