Introduction

This junior go-kart is specifically developed for rental in leisure surroundings. For you as rental/recreational company BERG offers a junior go-kart that is enforced on several positions so the product is suitable for heavy use situations. Because the model is suitable for use in leisure BERG offers 1 year warranty. Overall the BERG Buddy Pro offers the highest ROI when taken in account competitor product's hidden maintenance costs. If you want quality and no monthly maintenance you should choose for the BERG Buddy Pro.

Getting the highest revenue from rental stands apart from the structural improvements in product strength. The BERG Buddy Pro is designed to be visually appealing to children so they select the BERG Buddy Pro above competitor products even when asked a higher rental price. The product's age group showed to prefer high color contrasts and recognizable human expressions within the graphic design of the Buddy Pro. The black & orange coloring of the Buddy Pro beautifully blends with other leisure models, such as Gran Tour (family bicycle) and X-Cross (large go-kart). If desirable you as a rental company can choose for a leisure product line with a consistent appearance.
