Long, ***safe*** jumping in
every garden!

BERGTOYS.COM

WHY A CHAMPION?

Choose the unbeaten Champion!

The BERG Champion has been developed with great attention and care. This resulted in a qualitative excellent trampoline, which is safe to use. It does not matter which one you choose, you choose quality with a BERG Champion.

The BERG Champion is cleverly designed for long and safe jumping. The combination of the TwinSpring Gold springs and the AirFlow jumping technique ensures less air resistance, a larger jump area and more jumping fun!

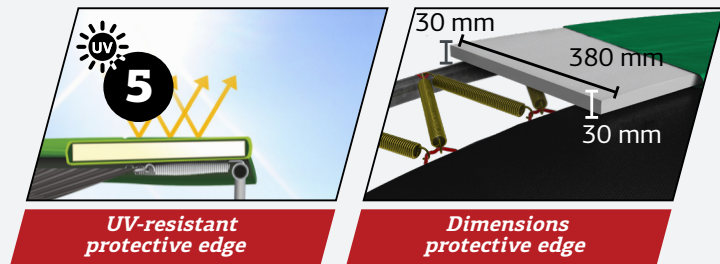

The BERG Champion is available in different sizes, colors and shapes. The Champion is available as Regular, InGround, Sports and FlatGround (Sports) trampoline.

- Less resistance with the BERG AirFlow jumping technique
- TwinSpring Gold springs for optimal jumping comfort
- Extra safe due to the thick PVC protective edge
- Galvanized and powder coated frame
- Available with Safety Net Comfort or Safety Net Deluxe

1. PVC PROTECTIVE EDGE

Choose the unbeaten Champion!

The protective edge of the BERG Champion is extra safe due to the thickness of 30 mm and the width of 380 mm. Due to the top and bottom layer of thick PVC, the protective edge last extra long.

Long, **safe** jumping in
every garden!

2. AIRFLOW

Choose the unbeaten Champion!

Higher jumps mean more fun. We have developed the AirFlow technique to enable you to make higher jumps. This jumping mat allows 50% more air permeation compared with a standard jumping mat. Good airflow ensures less resistance while jumping, which is why you can make higher jumps.

The AirFlow product innovation is only available on the BERG Champion and BERG Elite lines.

AIRFLOW

Long, **safe** jumping in
every garden!

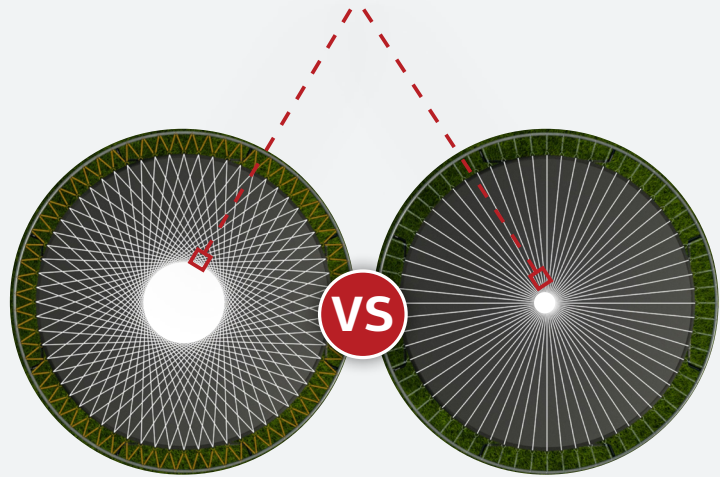

3. TWINSRING GOLD

Choose the unbeaten Champion!

The perfect jump area is that optimal part of the jump mat which results in the best jump experience. Jumping outside of this area results in a sense of feeling as if you are being pushed towards the inner part of the trampoline. Trampolines comprising of TwinSpring Gold Springs are mounted in the shape of a “V”. This allows for larger perfect jump area compared to trampolines that are sold with a conventional spring.

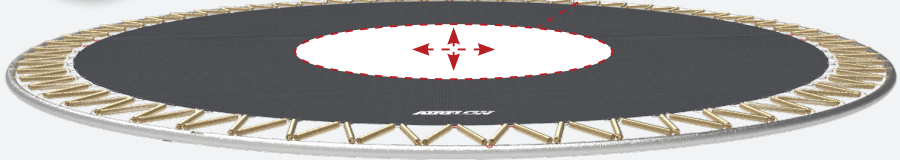

Another advantage? Due to the angled positioning of the TwinSpring Gold, the springs are longer in length without compromising the size of the jump mat. This results in a safer trampoline that optimizes playing pleasure!

TwinSpring Gold springs

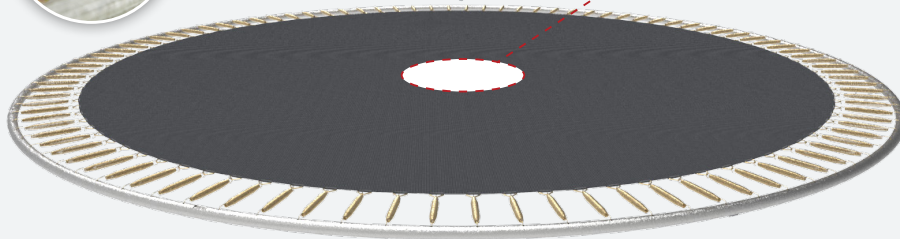

Perfect Jump Area

GoldSpring Solo springs

Perfect Jump Area

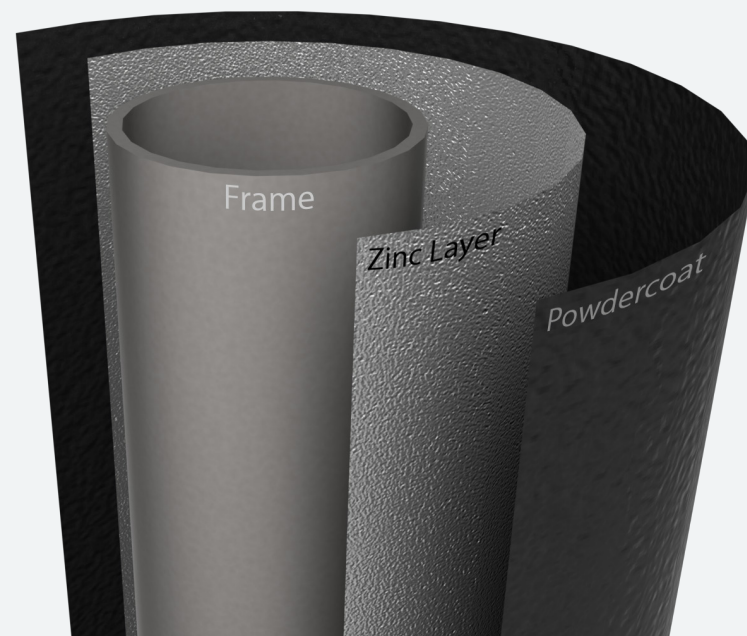

Long, **safe** jumping in
every garden!

4. FRAME

Choose the unbeaten Champion!

The frame of the Champion trampolines has a very long lifespan. This is due to the large diameter of 42 mm and the wall thickness of 2 mm. In addition, the frame has a solid zinc layer and the frame of the Regular trampolines have a protective black powder coat. The frame is therefore extra rust resistant.

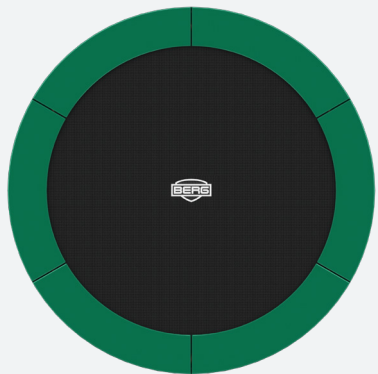

Long, **safe** jumping in
every garden!

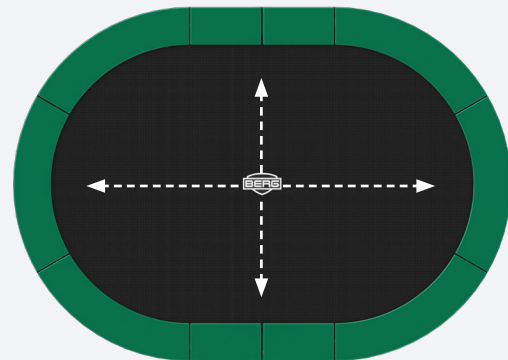

TRAMPOLINE SHAPES

Choose the unbeaten Champion!

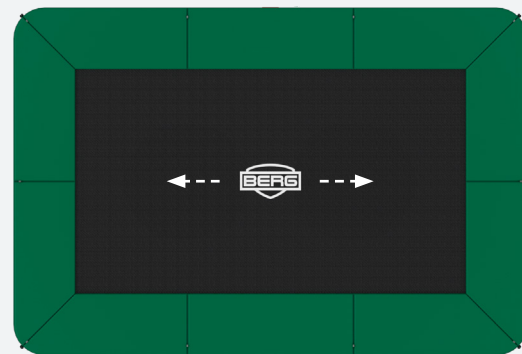

Round:

The most famous trampoline is the round trampoline. The round Regular and InGround BERG Champion trampolines are available in diameters 270, 330, 380 and 430. The BERG FlatGround Champion is available in diameters 330, 380 and 430.

Oval:

The BERG Grand Champion is the oval variant with the dimensions 515x365 cm. The oval shape provides the strength of a round frame, allowing you to jump over the full length. On a rectangular/oval trampoline you can jump nicely over the entire length.

Rectangular:

Prefer a rectangular trampoline? Then the BERG EasyFit is a suitable trampoline. The dimensions of this rectangular Champion are 220x330 cm. The advantage of a rectangular trampoline is that you can jump nicely over the entire length. In addition, this trampoline fits perfectly in almost any garden because of its shape.

Long, **safe** jumping in
every garden!

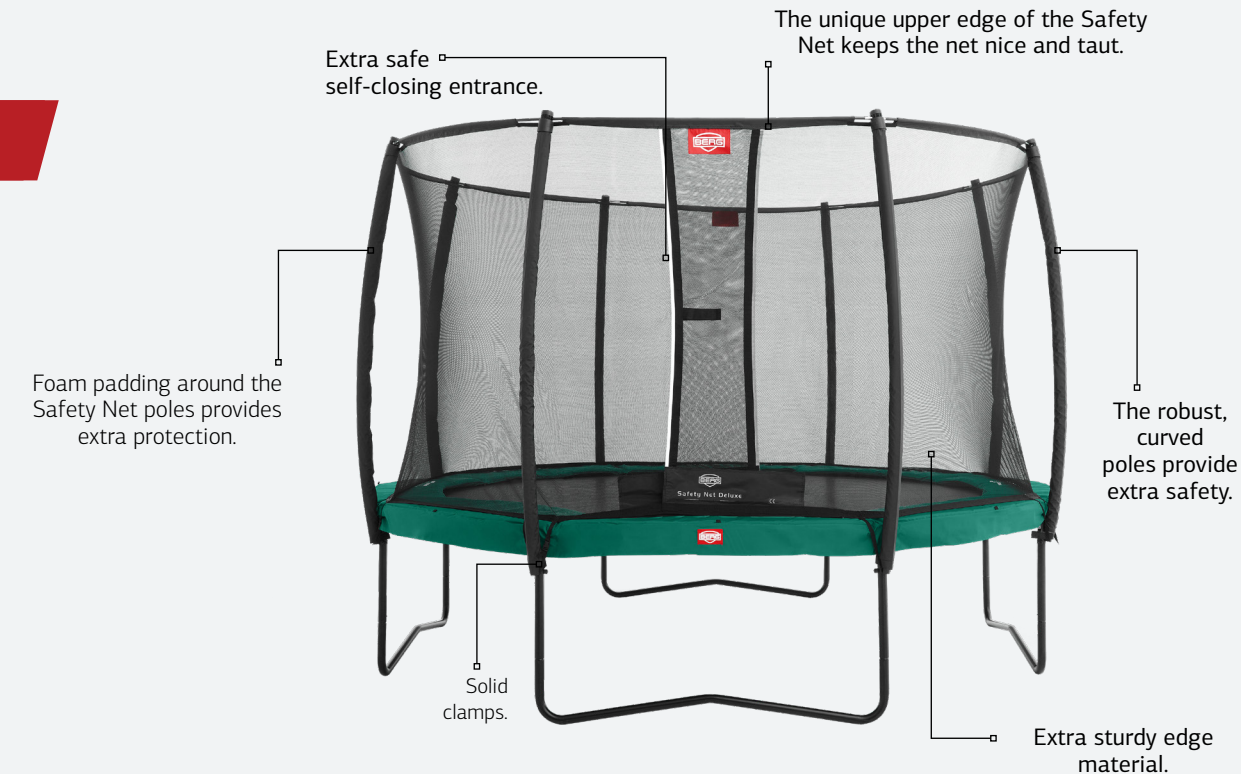

SAFETY NETS

Choose the unbeaten Champion!

Safety Net Comfort:

The Safety Net Comfort is a safe net through the self-closing entrance with recognizable piping. The poles of the net can easily be attached to the trampoline frame (Regular or InGround). Due to the thick foam around the poles, it is extra safe.

Safety Net Deluxe:

The Safety Net Deluxe is extra strong and safe due to the curved poles. The net is made of sturdy band material. The BERG Top cap makes the connection between the frame and the Safety Net Deluxe firmer and safer. The special top edge ensures that the net stays taut. This safety net also has a self-closing entrance.

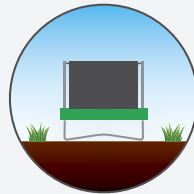

Long, **safe** jumping in
every garden!

TRAMPOLINE TYPES

Choose the unbeaten Champion!

BERG Champion

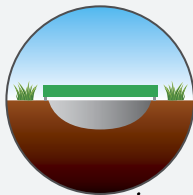

BERG Trampolines are available with legs in various shapes and sizes. These trampolines are also available with differently coloured protective edges. You can place them anywhere in your garden without having to dig a hole.

Ø 270 not in grey

BERG InGround Champion

The InGround version will give you easy access to the trampoline, without obstructing your view. BERG InGround Trampolines are available in various shapes and sizes and you have a choice of protective edges in various colours!

Ø 270 not in grey

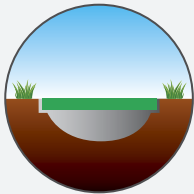

Long, **safe** jumping in every garden!

TRAMPOLINE TYPES

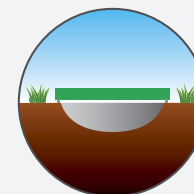

Choose the unbeaten Champion!

BERG FlatGround Champion (Sports)

A FlatGround trampoline can be dug so deep into the ground that it is completely concealed in your garden and becomes an extension of your lawn.

BERG InGround Champion (Sports)

Do you use a trampoline to stay fit and to practice sport? Then this sports version could be suitable for you.

Ø 270 not in grey

Long, **safe** jumping in every garden!
