WHY AN *ULTIM* CHAMPION?

Choose the unbeaten Champion!

The BERG Ultim has been developed with great attention and care. This resulted in a qualitative excellent trampoline, which is safe to use. It does not matter which one you choose, you choose quality with a BERG Ultim Champion. The BERG Ultim Champion is cleverly designed for long and safe jumping. The combination of the TwinSpring Gold springs and the AirFlow jumping technique ensures less air resistance, a larger jump area and more jumping fun!

In this productsheet you can find information about:

- The rectangular shape
- The protective edge
- The jump mat
- The springs
- The frame
- The Safety Net Deluxe

garden space, with our
rectangular trampoline*

1. THE RECTANGULAR SHAPE

On a rectangular trampoline you can jump over the entire length. The jumps that you make on a rectangular trampoline are more controlled. That's why rectangular trampolines are used by top performers at the Olympic Games. The shape ensures that the trampoline fits perfectly in almost any garden.

Perfect Jump Area TwinSpring Gold □

*Make the most of your
garden space, with our
rectangular trampoline*

2. PROTECTIVE EDGE

The Ultim Champion trampoline has a padding with a 30 mm thick foam layer. The foam layer is made from water-repellent "closed cell foam". The foam is covered by a thick water-resistant top layer of enforced PVC. The padding is 400 mm wide which ensures a good protective overlap of the springs.

garden space, with our
rectangular trampoline

3. AIRFLOW

Higher jumps mean more fun. We have developed the AirFlow technique to enable you to make higher jumps. This jumping mat allows 50% more air permeation compared with a standard jumping mat. Good airflow ensures less resistance while jumping, which is why you can make higher jumps.

The durable AirFlow jump mat is made from woven polypropylene. The jump mat contains special spring-eyes for the TwinSpring system. The loops for the strong metal spring eyes are thoroughly joined to the jump mat with no less than 8 rows of stitching.

AIRFLOW

The AirFlow product innovation is only available on the BERG Champion and BERG Elite lines.

4. TWINSPRING GOLD

The perfect jump area is that optimal part of the jump mat which results in the best jump experience. Jumping outside of this area results in a sense of feeling as if you are being pushed towards the inner part of the trampoline. Trampolines comprising of TwinSpring Gold Springs are mounted in the shape of a "V". This allows for larger perfect jump area compared to trampolines that are sold with a conventional spring.

Another advantage? Due to the angled positioning of the TwinSpring Gold, the springs are longer in length without compromising the size of the jump mat. This results in a safer trampoline that optimizes playing pleasure!

The BERG TwinSpring Gold is a long and slender spring. The spring is completely galvanized with a durable rust-resistant layer of zinc that covers the complete surface of the spring. Installing the springs has never been easier with the user-friendly installation system.

The jump mat is equipped with 4 red spring-eyes and the round top frame (top rail) of the trampoline has 4 locations that are marked red. Install the springs in between the red locations of the top rail and red spring-eyes and the jump mat is always installed properly.

garden space, with our
rectangular trampoline*

5. FRAME

The Ultim Champion has a solid frame of strong tubes with a substantial tube thickness. The frame is highly rust-resistant caused by the special double coating on the tube. The tubes are first provided with a durable zinc-layer and then covered with a beautiful black powder coating layer. The frame is easy to assemble.

garden space, with our
rectangular trampoline*

6. SAFETY NET DELUXE

The unique hoop at the top of the Safety Net keeps the net nice and taut.

Foam padding around the Safety Net poles provides extra protection.

The poles are equipped with solid clamps that are easy to assemble.

Extra safe self-closing entrance.

The BERG top cap connects the top hoop with the Safety Net poles.

The curved poles provide extra safety by creating distance between the Safety Net and the pole.

Extra sturdy band material.

BERG Trampoline

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

BERG ULTIM CHAMPION INGROUND + SAFETY NET DELUXE

Choose the unbeaten Champion!

BERG InGround Trampoline

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.
