1. BFR & BFR-3 FRAME

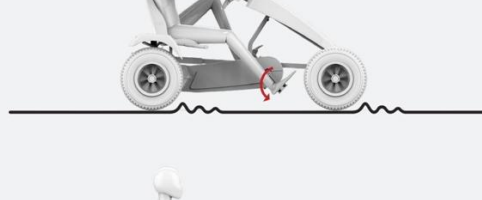

Inspiring Active Play

All BERG Frames, except the E-BF frame, are equipped with a unique BFR-system, incorporating a back pedal brake, together with forward and reverse pedaling. For maximum safety pedaling forward and reverse are automatic with no need for a lever or switch.

The BFR-system incorporates a freewheel. Which means that the pedals do not turn when the kart is moving and you stop pedaling. Resulting in a very safe ride.

Next to the BFR-system most themes are also suitable for a BFR-3 system. On every page in this brochure you can find if a BFR-3 system is also an option for that particular theme.

The BFR-3 system has all the benefits as the BFR hub. The advantage is that this system has 3 gears for optimal speed and comfort. The 2nd gear is equal to the "normal" forward motion of the BFR hub. The 1st is a little lighter and the 3rd a little heavier. With the BFR-3 system the go-kart is suitable for all terrains.

The ultimate quality go-kart!

2. E-BF FRAME

Inspiring Active Play

Do you want carefree fun driving with pedal support? If so, we have an innovative BERG E-go-kart for you. You can drive around in it for hours without a care in the world. The harder you pedal, the more support you will get from the motor.

The E-BF system is equipped with a 250W E-Motor that provides pedal support. The BERG E-go-kart has 4 levels of pedal support: ECO, TOUR, SPORT and TURBO. You can enjoy at least 2 hours of carefree driving with the battery on this go-kart. The BERG E-go-kart can reach speeds of up to 16 km per hour. This model is suitable for children from the age of 6. Supported by a torque sensor. Your pedal action is multiplied.

Most theme-packages are suitable for the E-BF system. On every page in this brochure you can find if an E-BF system is also an option for that particular theme.
