WHY A FAVORIT?

The right balance between quality and price

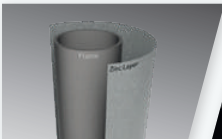

Do you not get enough of jumping? No problem! The BERG Favorit provides years of pleasure, hardly wears and requires little maintenance. The BERG Favorit has been developed with great attention and care. This has resulted in a qualitatively excellent trampoline, which is safe to use.

In this productsheet you can find information about:

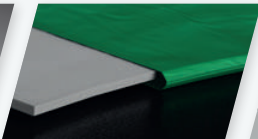

1. The round shape
2. The protective edge
3. The jump mat
4. The springs
5. The frame
6. The Safety Net Comfort

WARRANTY

Frame: 8 years*

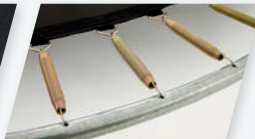

Protective edge: 2 years

Jumping mat: 2 years

Springs: 2 years

* On registration at bergtoys.com/registration

In this productsheet: Model, size and colour subject to change. Printing and typesetting errors reserved.

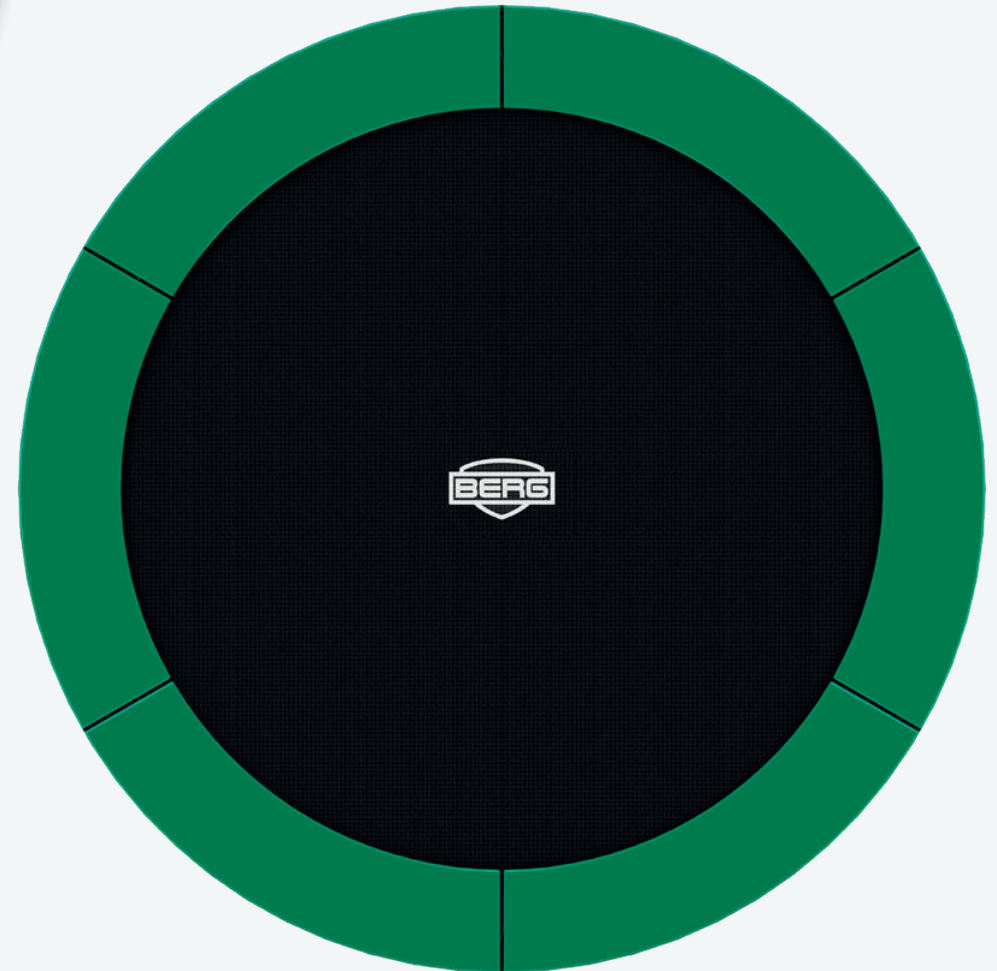

BERGTOYS.COM

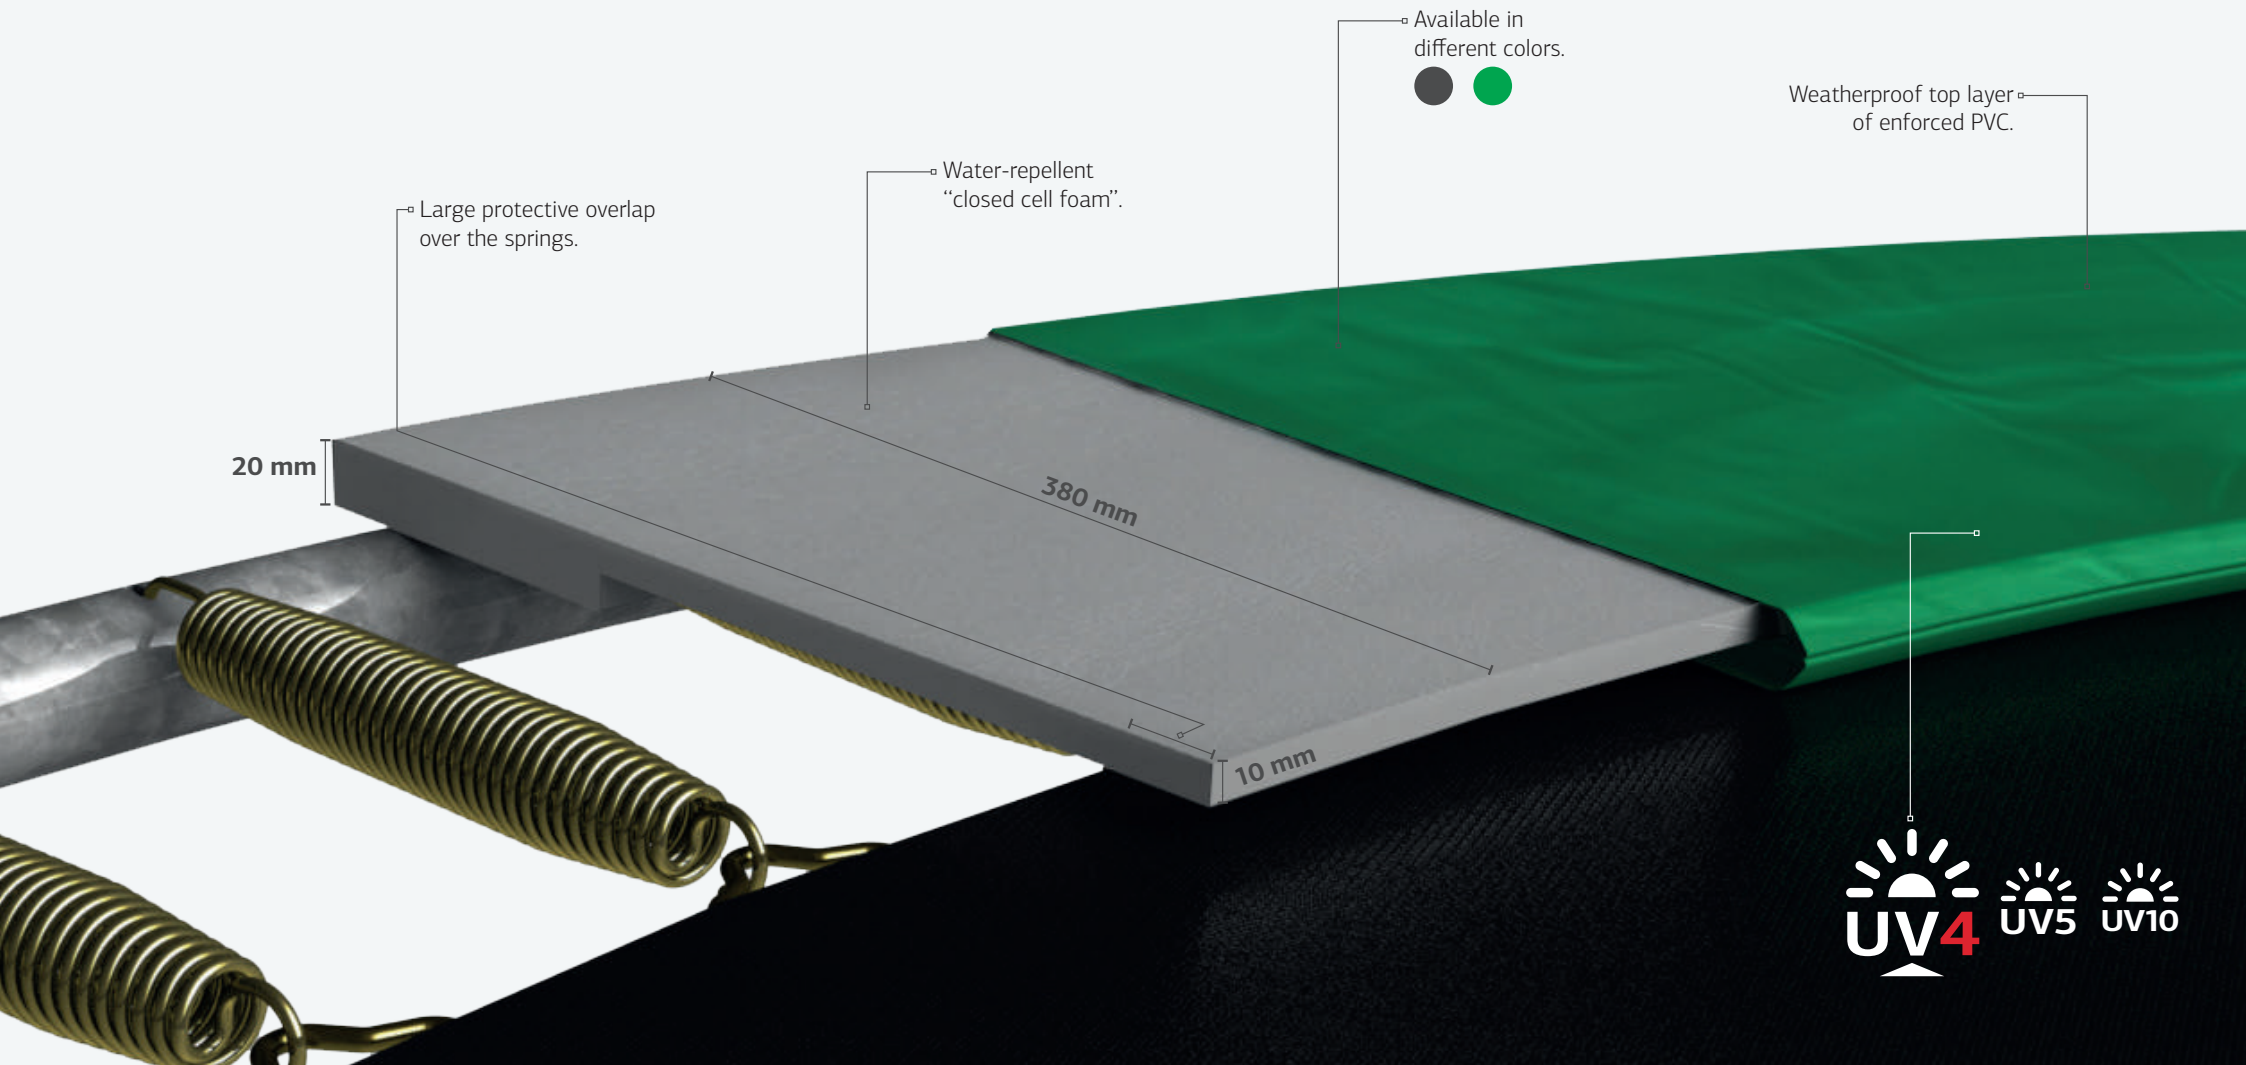

1. THE ROUND SHAPE

The frame of a round trampoline is very strong. On a round trampoline you always jump towards the centre. The best jumps are made in the centre of a round trampoline. This is because the tension on the springs and the frame is equally divided when jumping.

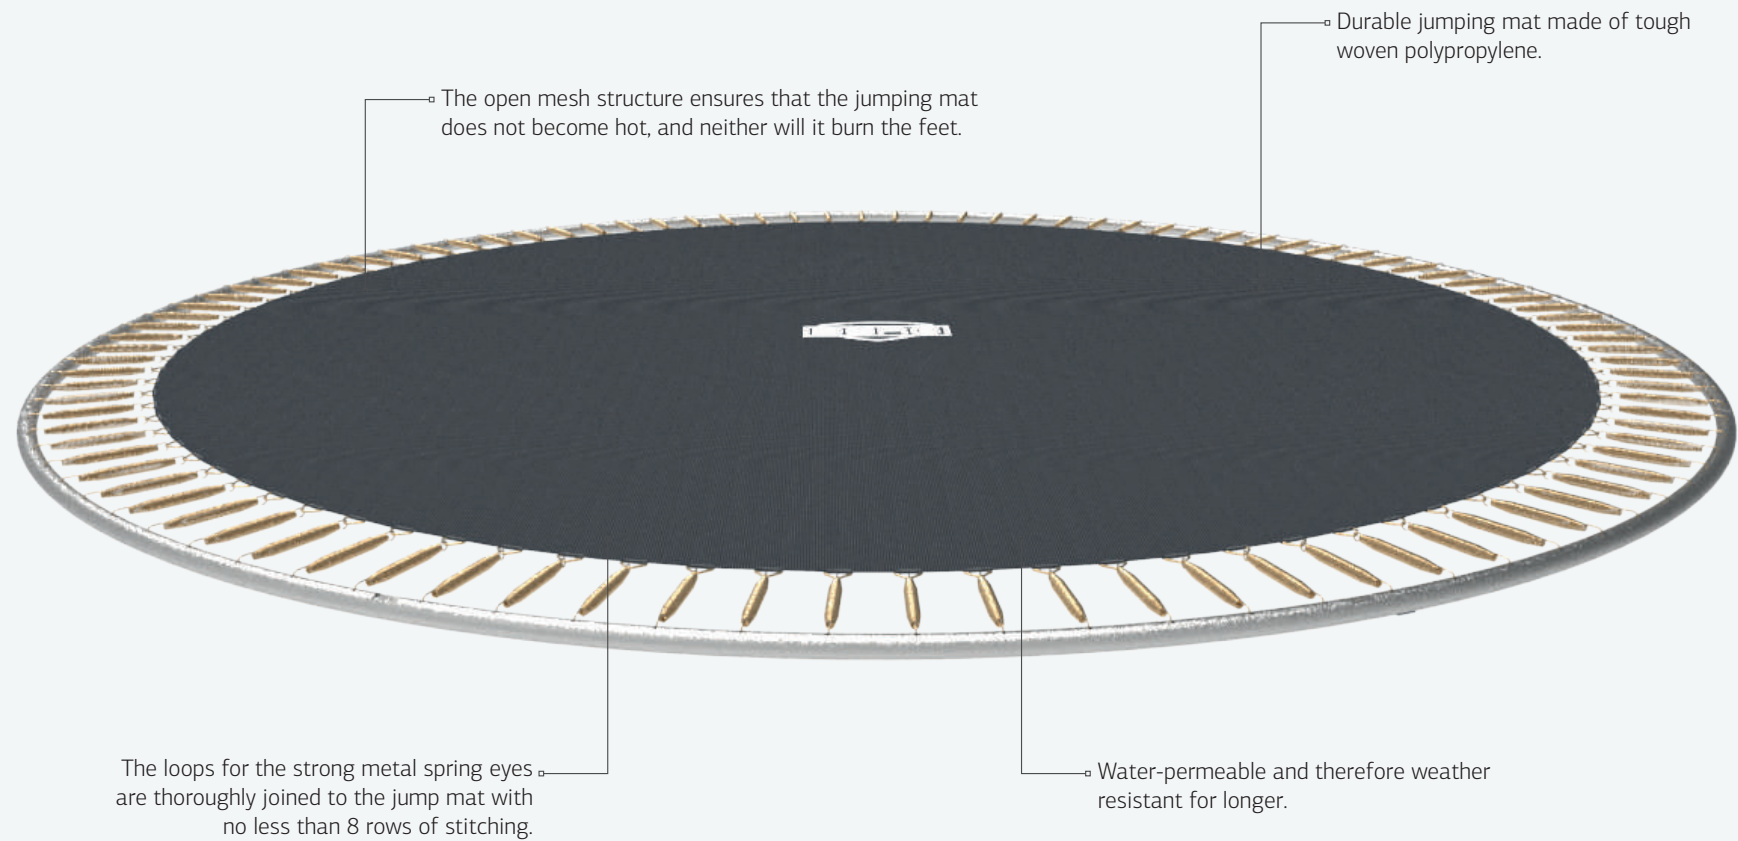

2. PROTECTIVE EDGE

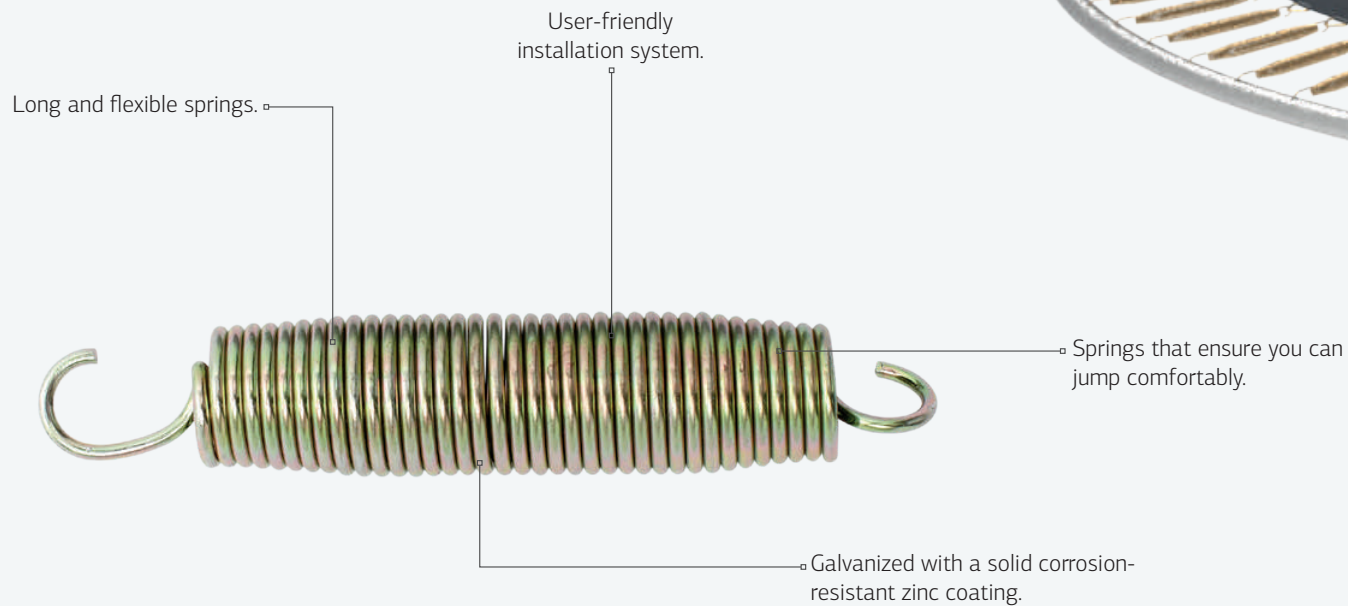

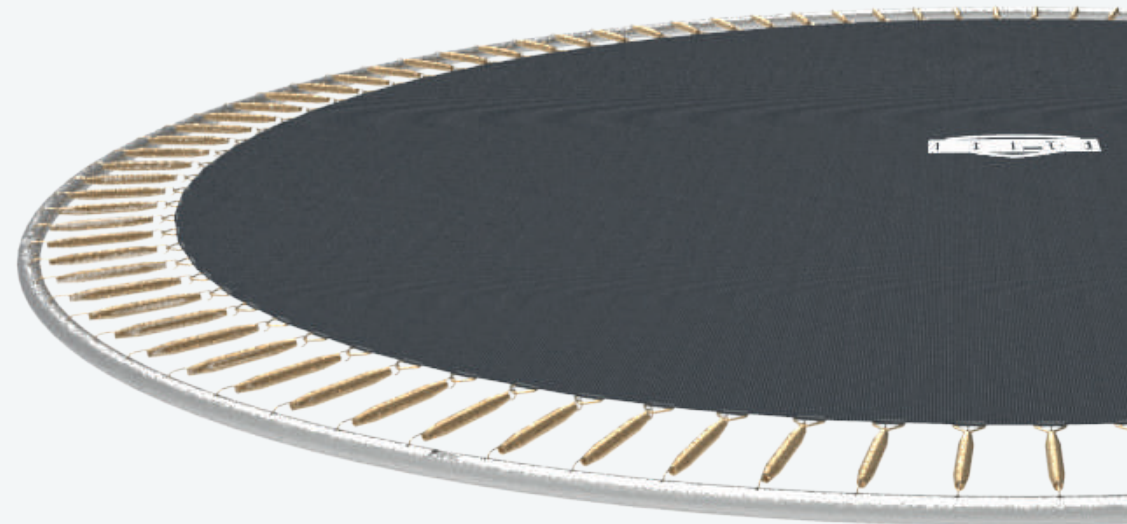

3. THE JUMP MAT

4. GOLDSRING SOLO

All sizes of the Favorit line are equipped with these springs. That's why you can make nice jumps on all these trampolines. The jumping comfort of these trampolines is much higher compared to the earlier BERG Talent line with GoldSpring Talent springs.

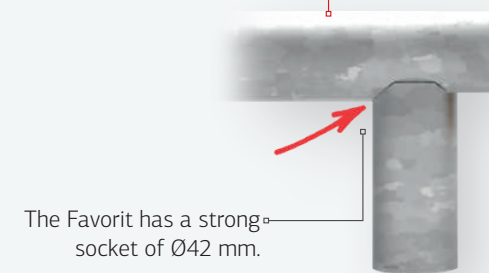

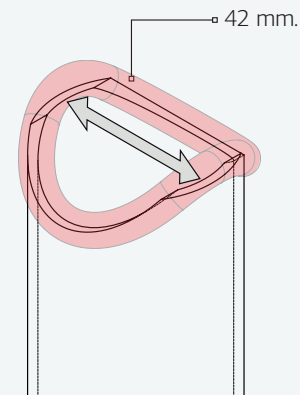

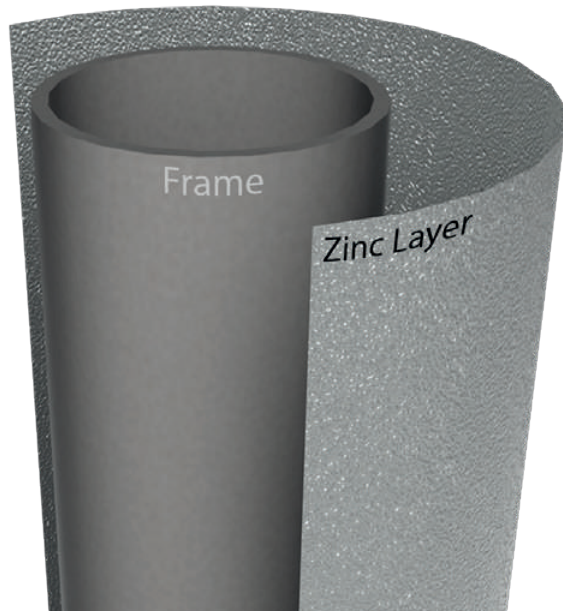

5. FRAME

The frame of the Favorit consists of thick, large diameter tubes. As a result, the Favorit trampoline has a long service life. The frame is rustproof due to its durable layer of zinc. The frame is easy to assemble.

The frames of sizes 200, 270 and 330 have 6 legs. The frames of sizes 380 and 430 have 8 legs. Please refer to the table at the back of this product sheet for all tube diameters and step-on heights.

The Favorit has a strong socket of Ø42 mm.

6. SAFETY NET COMFORT

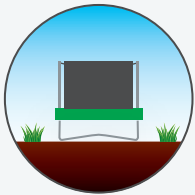

* This new top cap can be used for the old and the new Safety Net Comfort.

BERG FAVORIT

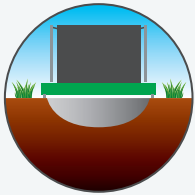

The right balance between quality and price

BERG Regular + Safety Net ● ●

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

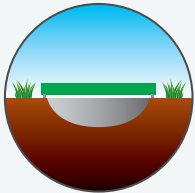

Ø 200 and 270 not in green

BERG InGround + Safety Net ● ●

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.

Ø 200 and 270 not in green

BERG InGround (Sports) ● ● **SPORTS**

The sunken trampoline without safety net (sports) is nicely concealed in your garden. The low threshold of 20 centimetres makes the trampoline easy and safe to step onto.

Ø 200 and 270 not in green
