1. THE RECTANGULAR SHAPE

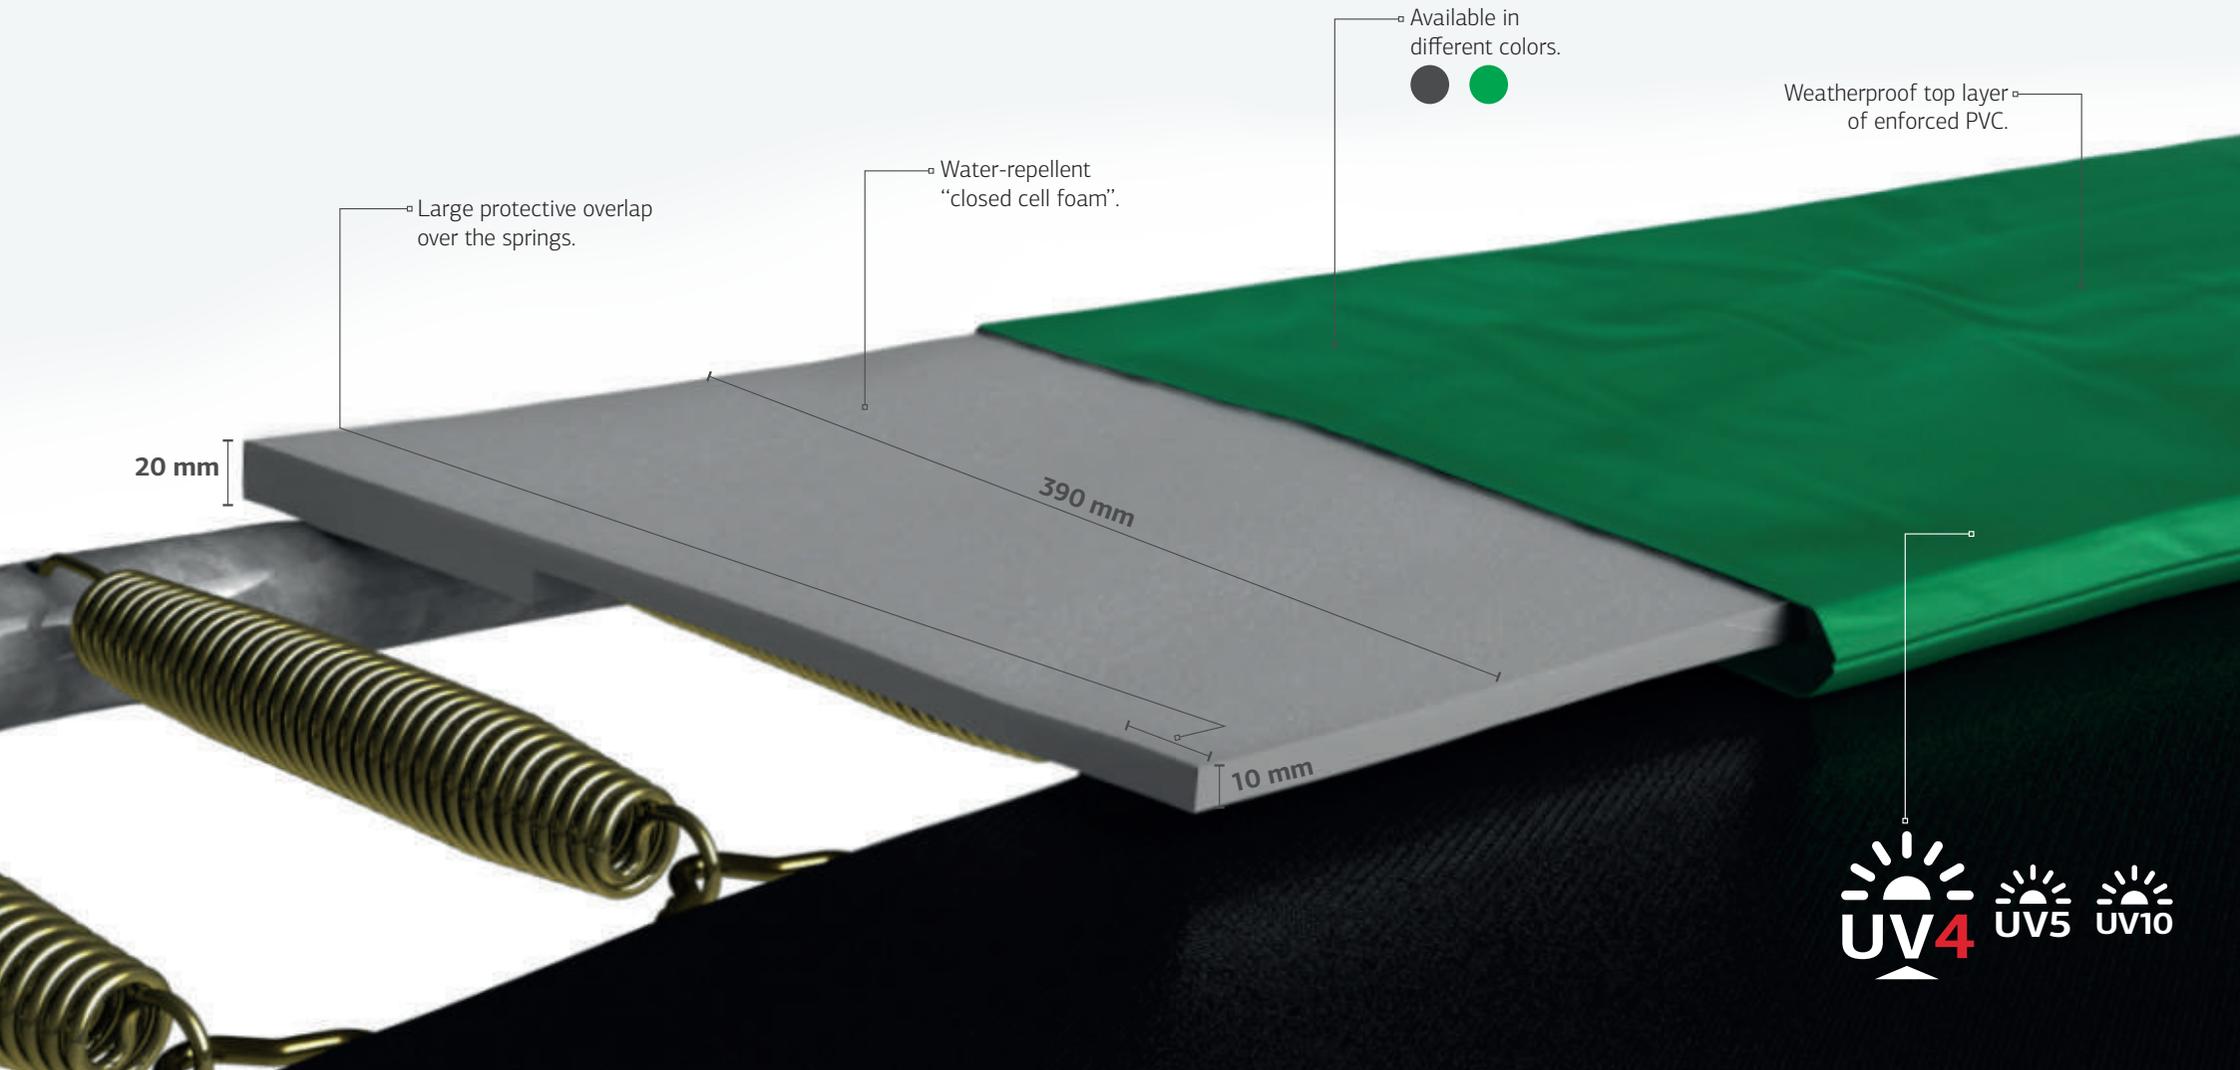

On a rectangular trampoline you can jump over the entire length. The jumps that you make on a rectangular trampoline are more controlled. That's why rectangular trampolines are used by top performers at the Olympic Games.

The shape of the Ultim Favorit ensures that the trampoline fits perfectly in a geometric garden design. Due to the trampoline's size (2.80 x 1.90m), it can be installed in practically any convenient place.

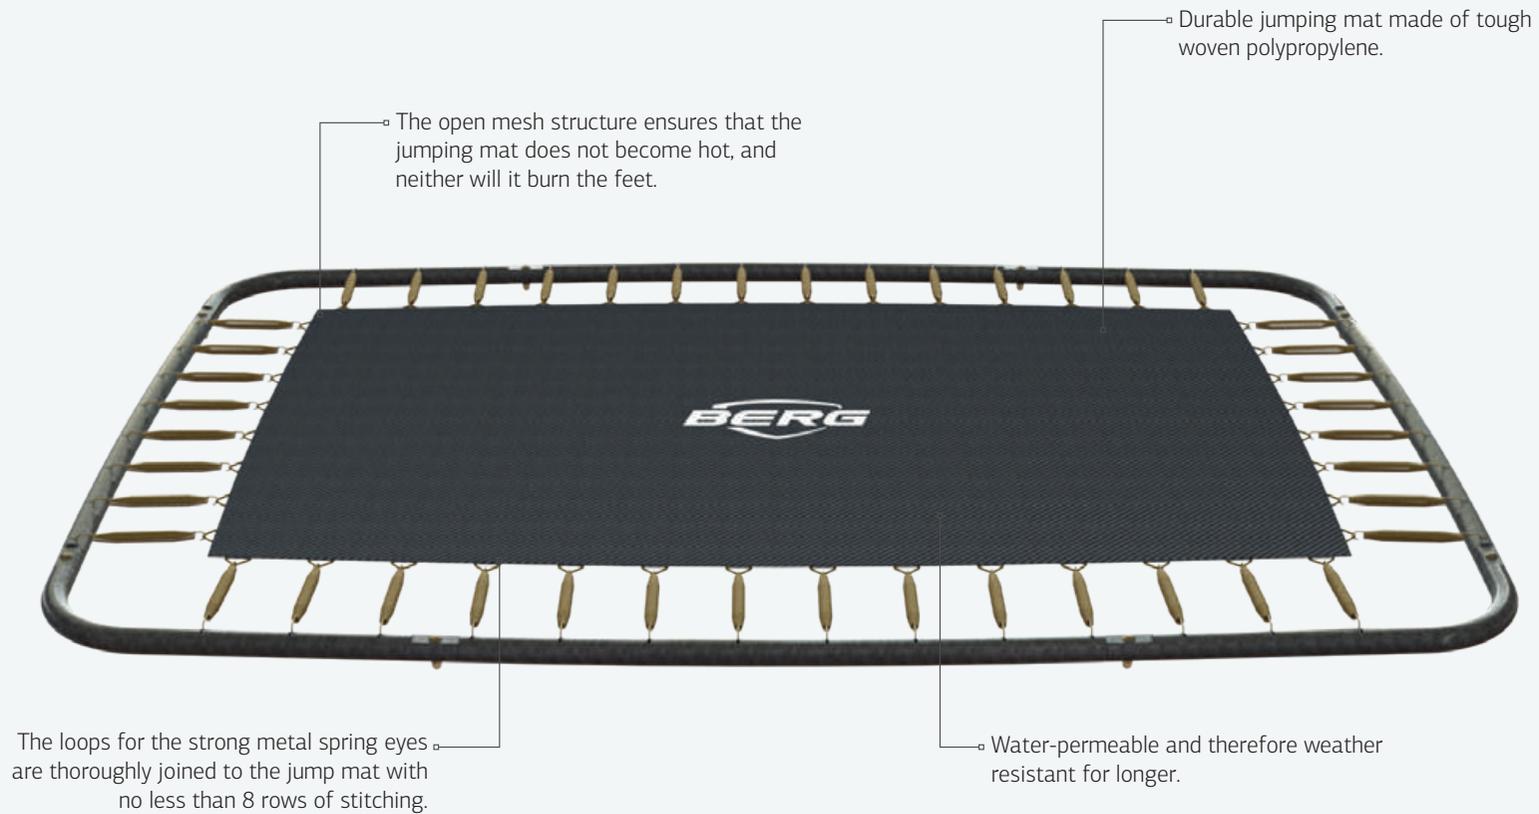

2. PROTECTIVE EDGE

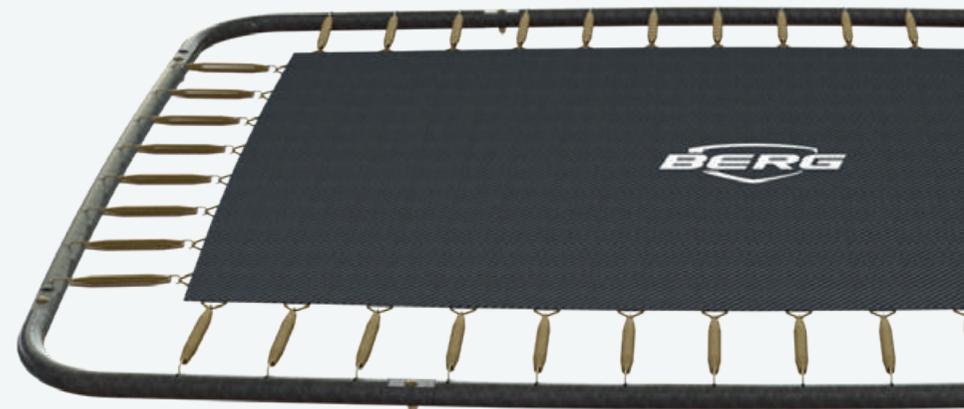

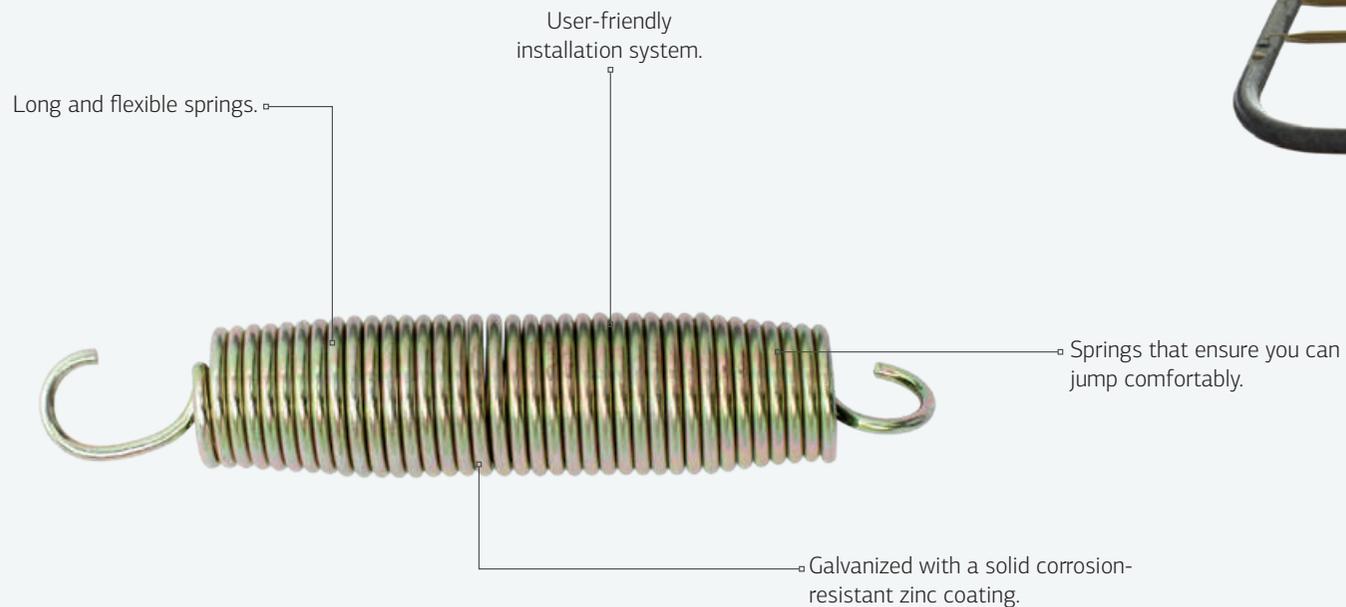

3. THE JUMP MAT

4. GOLDSRING SOLO

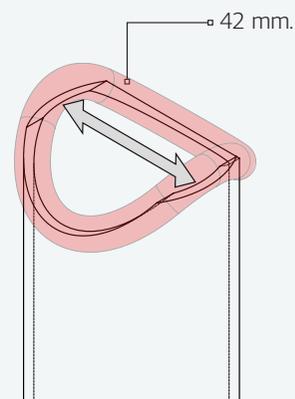

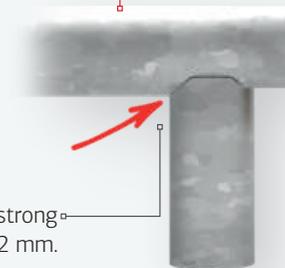

5. FRAME

The Ultim Favorit has a solid frame with strong tubes of a considerable tube thickness compared to trampolines of this size from other brands. The frame is extremely rustproof thanks to the special double coating on the tubes. The frame is easy to assemble.

The frame of the Ultim Favorit 280 has 8 legs. Please refer to the table at the back of this product sheet for all tube diameters and step-on heights.

The Ultim Favorit has a strong socket of Ø42 mm.

6. SAFETY NET COMFORT

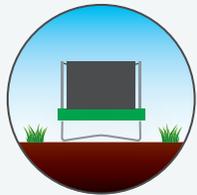

* This new top cap can be used for the old and the new Safety Net Comfort.

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.
