in every garden!*

BERGTOYS.COM

WHY A CHAMPION?

Choose the unbeaten Champion!

The BERG Champion has been developed with great attention and care. This resulted in a qualitative excellent trampoline, which is safe to use. It does not matter which one you choose, you choose quality with a BERG Champion. The BERG Champion is cleverly designed for long and safe jumping. The combination of the TwinSpring Gold springs and the AirFlow jumping technique ensures less air resistance, a larger jump area and more jumping fun!

In this productsheet you can find information about:

1. The round shape
2. The protective edge
3. The jump mat
4. The springs
5. The frame
6. Safety Net Deluxe
7. Safety Net DLX XL
8. Safety Net Comfort

WARRANTY

Frame: 13 years*

Protective edge: 2 years

Jumping mat: 2 years

Springs: 5 years

* On registration at bergtoys.com/registration

In this productsheet: Model, size and colour subject to change. Printing and typesetting errors reserved.

BERGTOYS.COM

1. THE ROUND SHAPE

The frame of a round trampoline is very strong. On a round trampoline you always jump towards the centre. The best jumps are made in the centre of a round trampoline. This is because the tension on the springs and the frame is equally divided when jumping.

2. PROTECTIVE EDGE

3. AIRFLOW

Higher jumps mean more fun. We have developed the AirFlow technique to enable you to make higher jumps. This jumping mat allows 50% more air permeation compared with a standard jumping mat. Good AirFlow ensures less resistance while jumping, which is why you can make higher jumps.

The durable AirFlow jump mat is made from woven polypropylene. The jump mat contains special spring-eyes for the TwinSpring system. The loops for the strong metal spring eyes are thoroughly joined to the jump mat with no less than 8 rows of stitching.

POWERED BY
AIRFLOW
& **TWINSRING**

The AirFlow product innovation is only available on the BERG Champion and BERG Elite lines.

50% more air permeation
for better jumping comfort.

AIRFLOW
Higher & more
flexible jumping.

4. TWINSPRING GOLD

The perfect jump area is that optimal part of the jump mat which results in the best jump experience. Jumping outside of this area results in a sense of feeling as if you are being pushed towards the inner part of the trampoline. Trampolines comprising of TwinSpring Gold Springs are mounted in the shape of a "V". This allows for larger perfect jump area compared to trampolines that are sold with a conventional spring.

Another advantage? Due to the angled positioning of the TwinSpring Gold, the springs are longer in length without compromising the size of the jump mat. This results in a safer trampoline that optimizes playing pleasure!

5. FRAME

The Champion has a solid frame of strong tubes with a substantial tube thickness. The frame is highly rust-resistant caused by the special double coating on the tube. The tubes are first provided with a durable zinc-layer and then covered with a beautiful black powder coating layer. The frame is easy to assemble.

The Champion has a strong socket of Ø42 mm.

6. SAFETY NET DELUXE

Thanks to the reinforced upper edge (made of fibreglass poles), the Safety Net is always nice and taut.

Extra safe due to the thick layer of foam around the Safety Net poles.

The poles are equipped with sturdy clamps that are easy to assemble.

Extremely safe, self-closing entrance with distinctive trim.

The top caps of this trampoline connect the hoop to the poles. The caps have an easy click system and are therefore easy to attach.*

The robust, curved poles provide more space between the Safety Net and the pole and therefore provide extra safety.

Having the net attached to the outer edge of the padding creates a larger jumping surface.

High-quality, dimensionally stable netting that feels soft to the touch.

* This new top cap can be used for the old and the new Safety Net Deluxe.

7. SAFETY NET DLX XL*

The Safety Net Deluxe XL is extra high (220 cm). This makes the net extra safe. The high opening makes it easy to access the trampoline.

22% XL

**HIGHER
& SAFER**

The pole sleeve has a long split that can be closed with a strip of Velcro.

Extra safe due to the thick layer of foam around the Safety Net poles.

The poles are equipped with sturdy clamps that are easy to assemble.

Thanks to the reinforced upper edge (made of fibreglass poles), the Safety Net is always nice and taut.

The top caps of this trampoline connect the hoop to the poles. The caps have an easy click system and are therefore easy to attach.

The robust, curved poles provide more space between the Safety Net and the pole and therefore provide extra safety.

Having the net attached to the outer edge of the padding creates a larger jumping surface.

High-quality, dimensionally stable netting that feels soft to the touch.

Extremely safe, self-closing entrance with distinctive trim.

* Only available on size 430.

8. SAFETY NET COMFORT

The Safety Net Comfort is only available for the sizes 380 and 430.

* This new top cap can be used for the old and the new Safety Net Comfort.

BERG CHAMPION

Choose the unbeaten Champion!

BERG Regular + Safety Net ● ●

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

Ø 270 not in gray

BERG InGround + Safety Net ● ●

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.

Ø 270 not in gray

BERG InGround (Sports) ● ● **SPORTS**

The sunken trampoline without safety net (sports) is nicely concealed in your garden. The low threshold of 20 centimetres makes the trampoline easy and safe to step onto.

Ø 270 not in gray

BERG FlatGround (Sports) ● ● **SPORTS**

A FlatGround trampoline integrates seamlessly with your garden. This is because the protective edge of the trampoline is completely level with the garden. This makes the trampoline unobtrusive and very easy to step onto.
