BERG STREET-X

Steer by moving your body

Are you looking for a really different and cool go-kart? Then the BERG Street-X is definitely for you! With this unique product you don't steer by moving your arms or hands, but by moving your entire body. This action is inspired by the movement you make when riding a motorbike.

The Street-X is equipped with pneumatic tyres which ensure optimum comfort. The integrated BFR hub also lets you pedal easily.

- BFR-system. Easy, fast and safe!
- Unique steering by moving your whole body
- Hand protectors for additional safety
- Durable steel frame
- Extra grip and comfort thanks to the pneumatic tyres
- Suitable for children between the ages of 6 and 12
- CE certified

1. BFR-SYSTEEM

The BERG Street-X is equipped with a unique BFR hub. This lets you pedal forwards and backwards easily, and you have a coaster brake. You can switch from pedalling forwards to backwards in one action. This ensures maximum safety.

The BF hub has a freewheel feature.

This means that the pedals don't keep turning while the go-kart is on the move and you have stopped pedalling. This ensures a safe ride.

*Super **sharp turns** just like on the bike!*

2. UNIQUE STEERING

Experience a whole new way of steering by moving your entire body. This movement lets you feel like you're riding a motorbike. The faster you go, the greater it feels.

3. HAND PROTECTORS

The BERG Street-X is equipped with special hand protectors which prevent you getting hurt on the knuckles and hands if you touch something accidentally.

Super **sharp turns** just
like on the bike!
