BERGTOYS.COM

1. THE RECTANGULAR SHAPE

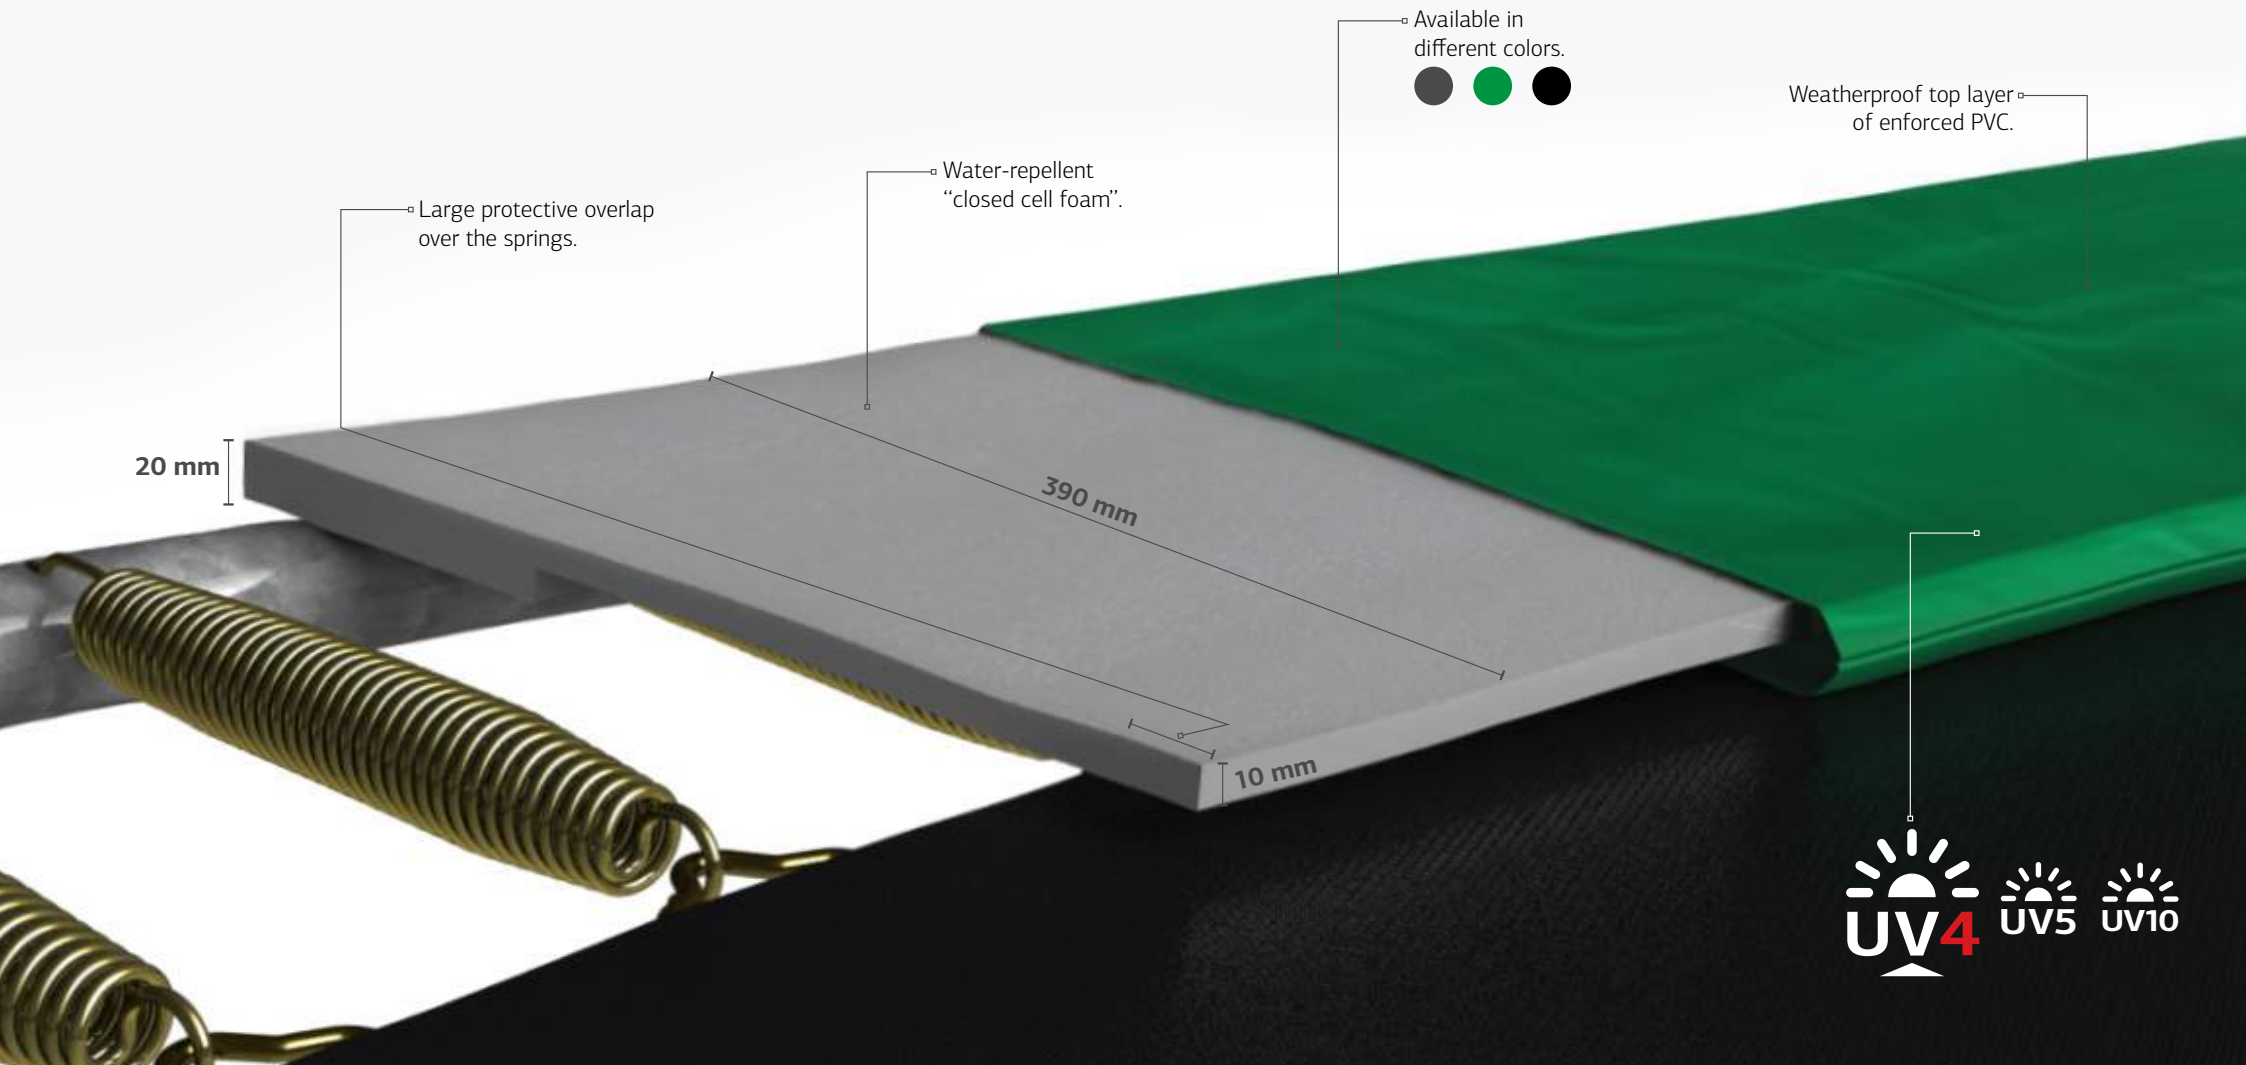

On a rectangular trampoline you can jump over the entire length. The jumps that you make on a rectangular trampoline are more controlled. That's why rectangular trampolines are used by top performers at the Olympic Games.

The shape of the Ultim Favorit ensures that the trampoline fits perfectly in a geometric garden design and can be installed in practically any convenient place.

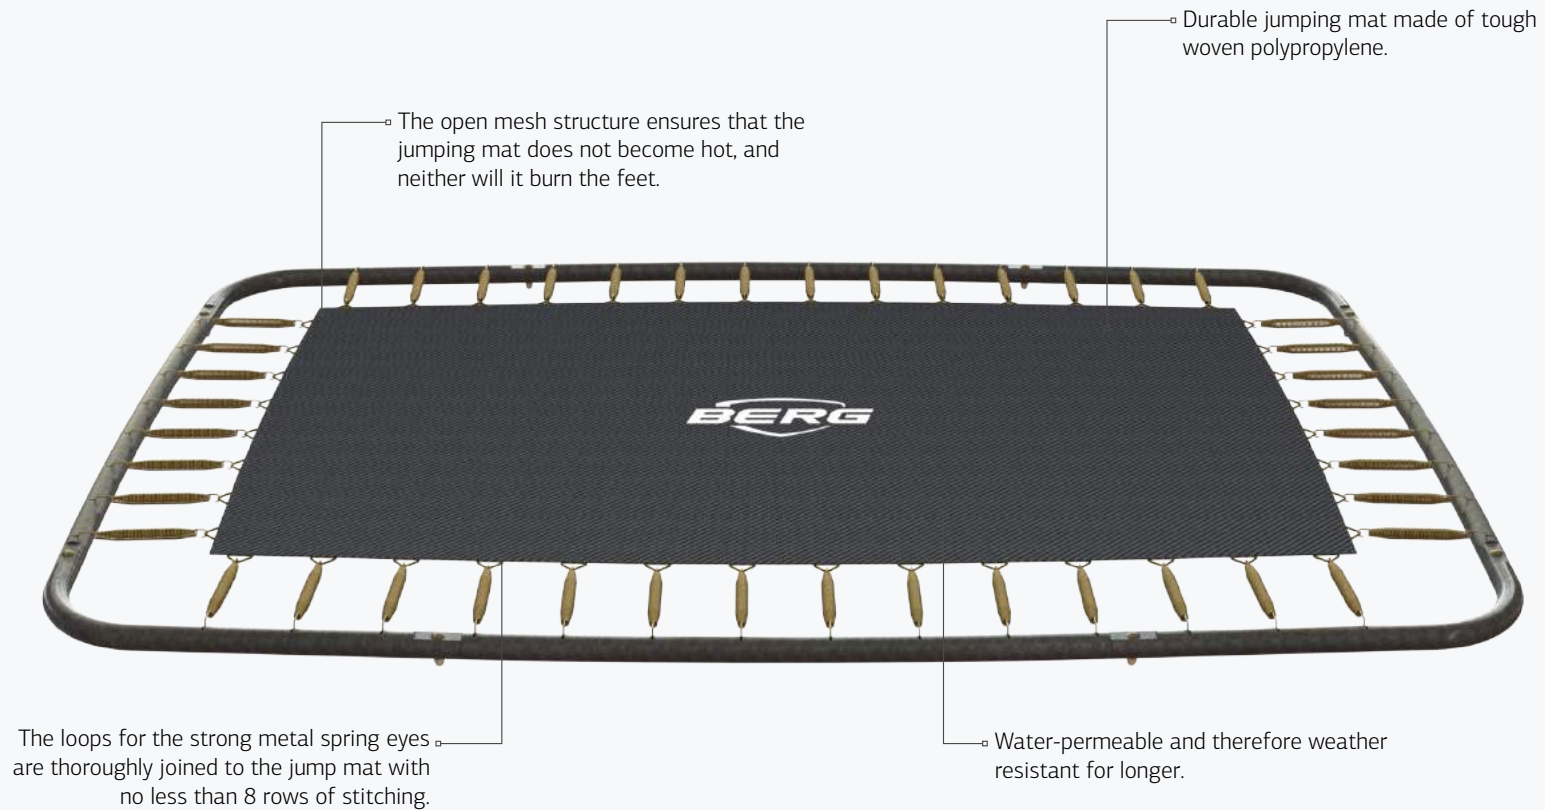

2. PROTECTIVE EDGE

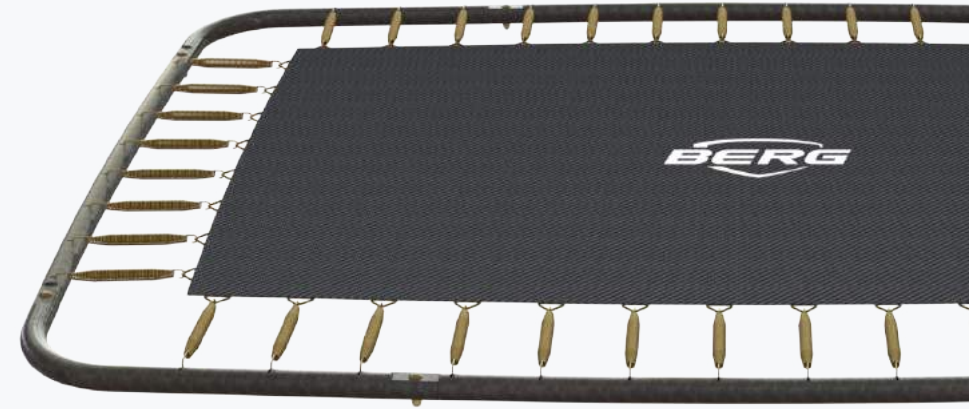

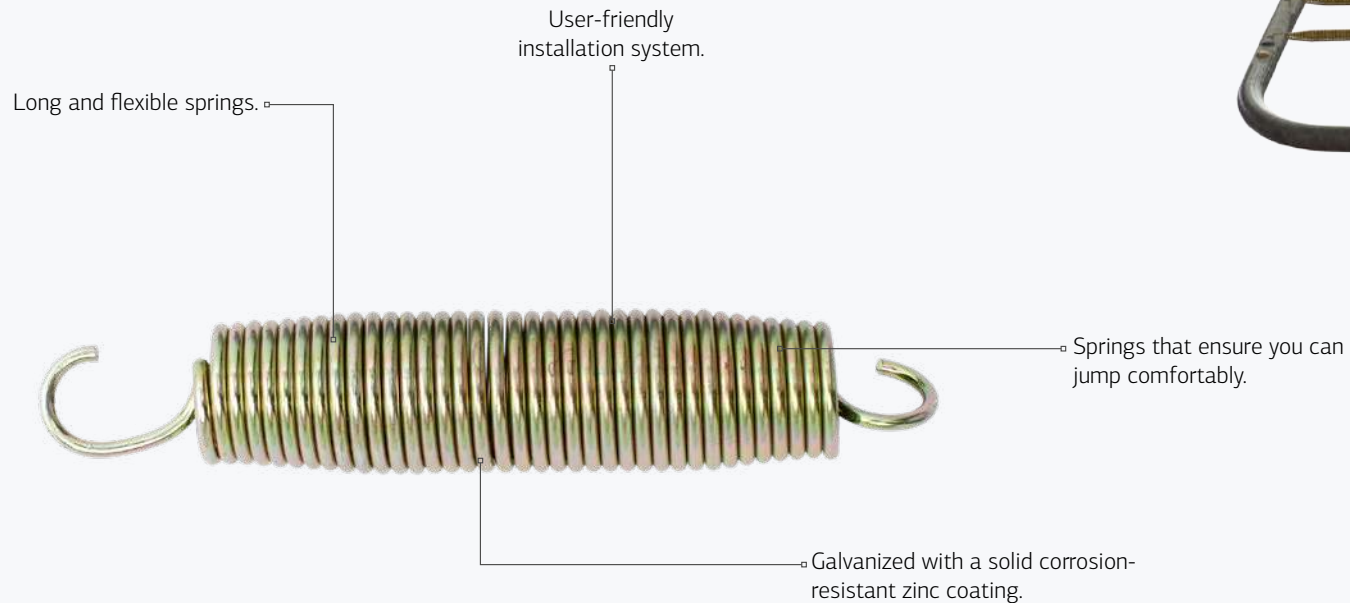

3. THE JUMP MAT

4. GOLDSRING SOLO

All sizes of the Favorit line are equipped with these springs. That's why you can make nice jumps on all these trampolines. The jumping comfort of these trampolines is much higher compared to the earlier BERG Talent line with GoldSpring Talent springs.

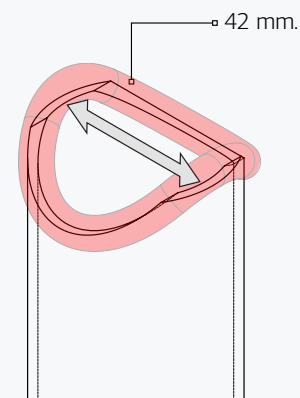

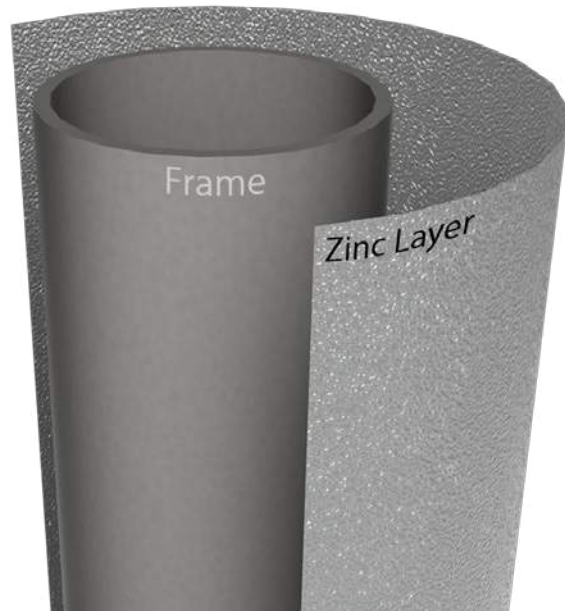

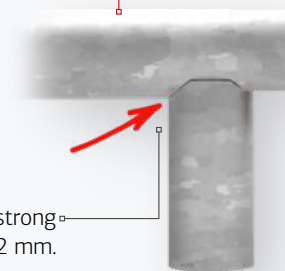

5. FRAME

The Ultim Favorit has a solid frame with strong tubes of a considerable tube thickness compared to trampolines of this size from other brands. The frame is extremely rustproof thanks to the special double coating on the tubes. The frame is easy to assemble.

Only with the black Favorits the frame legs are galvanized and additionally black powder coated.

The Ultim Favorit has a strong socket of Ø42 mm.

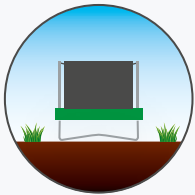

6. SAFETY NET COMFORT

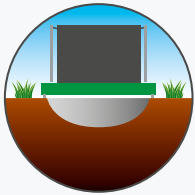

BERG **[]**LTIM FAVORIT

The right balance between quality and price

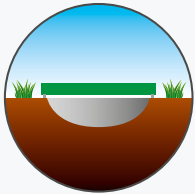

BERG Regular + Safety Net ● ● ●

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

BERG InGround + Safety Net ● ● ●

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.

BERG InGround (Sports) ● ● ● **SPORTS**

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.
